CREATING BEAUTY IS ART.

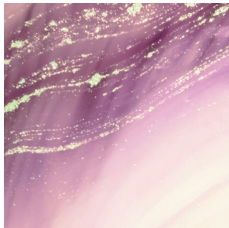

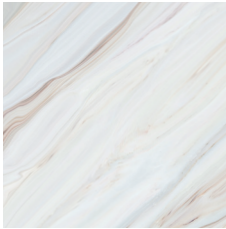

For this reason Beauty Spa employs its exclusive knowledge. State-of-the art technologies, a continuous dermatological research, high-performance proven, safe functional ingredients inspired by nature.

And, even more, cutting edge formulations, competent manual skills, one-of-a-kind treatment paths and effective synergies.

Beauty Spa interprets and hastens trends and needs of the market for the face and for the body, thus offering innovative solutions which have roots in the scientific rigor.

Inspired by nature,
led by science.
Beauty Spa embraces all of this:
a new form of art.

THE FACE

How we present ourselves to the world and the care we dedicate to our face are our best introduction.

Regardless of our features and individual characteristics, it is **the attention toward our skin and our beauty** that distinguishes us. A **well cared face** is a first, important step for good social relations.

The face care starts from a requirement: **everyday life**. Beauty Spa professional treatments perfectly combine with the **home treatments** which strengthen their values and benefits.

Our face says it all.
Let it express itself at
its best.

01 **AQUA CONCEPT**

COMMUNICATION
BETWEEN SKIN AND WATER

*“A hydrated skin is a healthy skin
capable of dealing with the environmental
stressors, the passing of time, stress.
Without a correct hydration, beauty cannot exist.”*

HYDRATION is the key word for a skin
that learns to regain its correct hydro-lipid
balance which keeps vitality and beauty
over time.

BEAUTY SPA natural resources

It is a **super-hydrating** blend made up of a mix of vegetable **natural sugars**, **Hyaluronic Acid** and **Natural Moisturizing Factors (NMF)**, a vitamin pool and oat-derived **Avenanthramides**.

Thanks to this special synergy, Aquablend **boosts the hydration level of the horny layer**, reduces the TEWL (Transepidermal Water Loss), performs a humectant action, rebalances the mix of NMF and counteracts redness and inflammation.

Its combined action is especially intensive and ensures a **natural rebalancing, anti-aging effect**.

The daily cleansing ritual is enhanced by innovative formulations, state-of-the-art emulsifying systems and the special ***Aquablend***.

250ml

500ml

300ml

SKIN CLEANSING

IDEAL FOR

Removing make-up even around the eyes.

Cleansing the whole face, especially for normal and dry skin.

Cleansing the whole face, especially from normal to combination skin.

TREATMENT

DUO

Gentle Eye Make-Up Remover

An innovative formula which exploits a system of pre-emulsified oils to make make-up removal in the face and around the eyes effective and very gentle. The make-up is melted by oils and incorporated into micelles, then removed with the toner. The skin-feel is purely velvety.

HYDRAMILK

Gentle Moisturizing Cleansing Milk

Hydration while cleansing thanks to a special ethoxylate-free liquid crystal emulsion. It employs Glucose-derives gentle emulsifiers capable of melting the impure skin particles. It also contains the exclusive super-moisturizing Aquablend. Ideal every day: morning and night.

HYDRAMOUSSE

Moisturizing Cleansing Mousse

Fluffy exactly like a mousse this special cleanser rediscovers the ritual of cleansing. Its composition mimics the skin Natural Moisturizing Factor in order to preserve its correct moisture level. Meanwhile, surfactants boasting a great skin tolerability ensure effectiveness and pleasantness.

SPECIFIC
FUNCTIONAL
INGREDIENTS

Cetiol Ultimate

Aquablend,
Extract of Gallic Rose
and Damask Rose

Aquablend

RESULTS

Thoroughly cleansed skin, make-up removed. The skin appears velvety and hydrated.

Cleansed, fresh-looking skin with an accentuated velvety, soft touch.

Thoroughly cleansed, decongested skin glowing with radiance.

300ml

250ml

250ml

EXFOLIATING PEELING

Gently exfoliating and renewing facial skin.

BIOPEEL
Renewing Brightening Gel

Water-free peeling containing 15% of Mandelic Acid and with an innovative formulation. It activates with the natural heat of hand skin and, later, that of the face, thus performing a gently thermogenic, pleasant action that facilitates the soft exfoliating effect of Mandelic Acid.

Mandelic Acid

Renewed, gently smoothed skin ready to receive the following treatment products.

SKIN TONING

Moisturizing and soothing after cleansing. For all skin types.

AQUALOTION
Wrapping Moisturizing Lotion

A nano-emulsion that embraces the wealth of oils and functional ingredients boasting hydrating, nourishing properties. It helps soothe the skin by performing a soothing, calming action. Its innovative formulation makes Aqualotion a treatment product to all intents and purposes with a very light, strongly sensory texture.

Aquablend,
Extract of White Peony

A very thin layer covers the skin, keeping its hydration and luminosity. The whole complexion gets smooth.

Minimizing pores and mattifying skin after cleansing. Ideal for skin ranging from normal to combination.

FINE TONER
From Normal to Oily Skin Lotion

A micro-emulsion rich in functional ingredients among which the extract of Rose Hip boasting a sebum normalizing, rebalancing action. Special texturizing substances produce a mattifying effect and favor the reshaping of pores.

Aquablend,
Extract of Rose Hip

Skin texture is perfected. Shininess is eliminated leaving room for luminosity and pores are minimized.

150ml

RESTORATIVE MASSAGE

IDEAL FOR

Performing a reactivating massage on facial skin.

TREATMENT

SUBLIME

Face Massage Active Oil

A light touch mixture of vegetable oils. The Almond Oil, Olive Oil, Borage Oil and Flaxseed Oil, which underwent an activation treatment, have been turned into a moisturizing, antioxidant phytocomplex providing a velvety touch. It is characterized by a very pleasing final skin feel.

SPECIFIC
FUNCTIONAL
INGREDIENTS

Phytocomplex of Vegetable Oils,
Argan Oil

RESULTS

The massage is pleasing and prolonged. The skin keeps a fresh, non-greasy touch.

200ml

TONING MASSAGE

Massaging facial skin meanwhile providing a relaxing, toning action.

RESTORING

Face Massage Cream

Emulsion conceived to have a “cascade” effect with dermatological Oils with different molecular weights which adapt themselves to the specific characteristics of the massage and to the special type of skin being treated. It allows performing all the different manual skills with the utmost pleasantness.

Allantoin
Hyaluronic Acid

The massage is pleasing and prolonged. The skin appears glowing and “reactivated”.

300ml

MASSAGE AND MASK

Smoothing and making the skin tissue silky. This product is strongly recommended for alipic, dehydrated skin.

WATER MASSAGE MASK

Moisturizing and Regenerating Mask

This mask consists of a micro-emulsion with a gel-like appearance formulated to ensure a potential “endless massage” capable of reactivating the skin microcirculation and vascularization. It may be left on right after the massage in order for the moisturizing, smoothing functional ingredients providing a silky action to act in synergy.

Aquablend,
Extract of White Peony

The skin witnesses a sort of a “skin wake-up” effect: a sort of natural skin awakening which gives the face a relaxed, smoothed, glowing appearance.

300ml

LIFTING AND DETOX ACTION

A detoxifying and lifting action to improve the skin moisture level.

PULLULAN

Detoxifying Lifting Mask

Peel-off mask made up of a gel obtained from Pullulan. The supply of this functional ingredient is synergistic and optimized here. Not only does Pullulan improve the skin moisture level by creating a film over skin slowing down the TEWL, but it also performs an interesting lifting action which is almost immediate.

Pullulan

The product lifting action makes the skin smooth and evened out. Moreover, the skin tissue regains its hydro-lipid balance.

02 THE SPECIALIST

SKIN SPECIALISTS

“The expertise is the key prerequisite to reach the best results. Specialists treat the details without overlooking the overall view.”

Skin types are not the same. They vary from person to person, but also the same face shows typical, exclusive characteristics in different points.

The Specialist line was created from this perspective: it takes care of **oily skin** or **dry skin**, of those who suffer from **skin dehydration** and of those who show **shiny, impure areas** under normal conditions. It is a super-customized line which deals with the main facial needs with wide dermatological knowledge.

For this reason it comes in an **Oily** version for oily, combination and impure skin; in a **Dry** version for dehydrated and dry skin and in an **Eye Tech** version for the eye contour area.

SPECIALIZATION is the key word for a face that regains its balance, beauty and charm.

BEAUTY SPA
natural resources

THE
SPECIALIST
for OILY SKIN

300ml

200ml

PURIFYING MASK

FINAL EMULSION

IDEAL FOR

Dermopurifying the skin and performing a sebum-absorbing action.

Mattifying and regulating the sebum production. For oily, impure skin.

TREATMENT

ACID GREEN
Mineral Purifying Mask

A professional mask made up of an emulsion rich in natural powders including the mineral green Clay and Bamboo coal for a sebum-absorbing action ideal for treating oily skin. It contains Alpha-Hydroxy Acids and Salicylic Acid boasting exfoliating, dermopurifying properties.

SEBOCONTROL
Daily Sebum Absorber

A sorbet-like texture and the effectiveness of a balanced formulation specific for oily skin. The mix of humectants and oils allows obtaining an optimum hydration, while special texturing agents with modified starch mattify, performing at the same time a sebum-absorbing action.

SPECIFIC
FUNCTIONAL
INGREDIENTS

Pureness Blend,
Bamboo Coal

Pureness Blend

RESULTS

The skin appears regenerated and fresh-looking. Pores are minimized and the skin balance is restored.

Pores are minimized; the skin is luminous, but not shiny. Better balance in the sebum production.

300ml

MOISTURIZING MASK

IDEAL FOR

Improving the skin hydration and soothing the skin.

TREATMENT

REVITALIST

Deep Moisture Flower Mask

A super-intensive mask formulated for those types of skin that require a hydration surplus and a revitalizing action. Its texture is rich and full-bodied, ultra-comforting and cocooning, while the special section of functional ingredients ensures an optimum hydration. Finally, the soothing, calming action performed by the Avenanthramides is very important.

**SPECIFIC
FUNCTIONAL
INGREDIENTS**

Avenanthramides,
Extracts of Magnolia and Iris

RESULTS

The skin appears very soft and fresh to the touch, perfectly hydrated and toned.

200ml

FINAL EMULSION

Moisturizing and soothing the skin, protecting it against UV radiation and pollution.

CITYMOIST

Antipollution Urban Cream SPF 15

An emulsion formulated to finish the treatment in the spa room and prepare the skin to deal with the urban environment. It implements a pool of functional ingredients selected for their ability to counteract the action of the particulate matter (PM) and the effects of the UV, Infrared and Blue rays at the same time ensuring a soothing, moisturizing action.

PM and UVB Protector,
3 Hyaluronic Acids

Velvety-like, fresh looking skin, gently protected even in the urban environment.

6x7ml

MOISTURIZING, FIRMING ACTION

Moisturizing and energizing the skin tissue. Especially recommended for dehydrated and alipic skin.

PENTAVITAMIN

Bio-Energetic Blend

The energy blend par excellence that combines five vitamins E, A, PP, C and Panthenol. Its action is multi-purpose: prevention against the aging signs, counteraction of free radicals, soothing, de-reddening effect, strong moisturizing action, stimulation of fibroblasts to produce the structures supporting the skin architecture and dynamizing revitalization.

Vitamins E, A, PP, C;
Panthenol

The skin texture appears glowing and fresh looking, velvety to the touch. The skin tonicity improves over time.

6x10ml

MOISTURIZING, PREVENTIVE ACTION

Improving the skin hydration and preventing the chrono-aging.

HYALU C

Hyaluronic Vitaminc Compound

A specific serum for the spa room for a treatment aimed at giving radiance and beauty to the facial skin. The well-known antioxidant, anti-spot, anti-aging benefits of Vitamin C combine with the strongly moisturizing action of the different molecular weight Hyaluronic Acids.

3 Hyaluronic Acids,
Blend of Hygroscopic Molecules

Reactivated, fresh looking, glowing, well oxygenated skin.

150ml

EYE TREATMENT

IDEAL FOR

The recovery after cleansing and for protecting the eyes during the face-dedicated treatments.

TREATMENT

SENSILOTION

Decongesting Lotion

A fresh, light lotion perfectly dermo-compatible formulated for treating the delicate area around the eyes. It contains Hyaluronic Acid and Trehalose boasting strongly moisturizing properties, soothing, softening Licorice Extract and Adenosine. It is a functional ingredient selected for its capability of reactivating the skin biological functions and improving the microcirculation.

SPECIFIC
FUNCTIONAL
INGREDIENTS

Trehalose,
Extract of Licorice

RESULTS

The eye contour area becomes fresh and glowing. The skin is soothed and regains its beauty.

50ml

FINAL EMULSION

Completing the eye treatment by attenuating under-eye bags and dark circles, and giving a fresh-looking, rested appearance to the eyes.

HYALUGEN

Toning Eye Cream

Formulated to complete the treatment dedicated to the eye contour area, it boosts the collagen production and gives a fresh look to the eyes. It contains Procollagen performing a regenerating action and a Siegesbeckia orientalis and Albizia julibrissin extract-based compound boasting lifting, detoxifying properties which improve the skin microcirculation.

Compound of Siegesbeckia orientalis and
Albizia julibrissin,
Procollagen

Under-eye bags and dark circles appear immediately attenuated. The eyes acquire a vital look.

* *Dermoscience Cryo Effect* technology offers a refreshing effect with benefits on microcirculation.

5 buste

5 buste

5 buste

EYE MASK

Counteracting the under-eye bags and puffiness of the eye contour area.

HYDROGEL PATCH D
*Decongesting Eye Area Patch
Bags and Puffiness*

Hydrogel formulated to perform a decongesting, anti-bags action. It acts thanks to the presence of Extracts of toning, firming Green Algae; moisturizing and elasticizing Aloe Vera and toning, tightening Collagen.

Green Algae,
Aloe Vera

Under-eye bags and puffiness tend to progressively attenuate, while the whole eye contour area benefits from a pleasant “freshness effect”.

Performing a lifting action on the eye contour area and redefining length and depth of wrinkles.

HYDROGEL PATCH L
*Lifting Eye Area Patch
Deep Wrinkles Anti-Age*

Hydrogel formulated to perform an intensive lifting, anti-aging action. The Hyaluronic Acid with three different molecular weights performs a moisturizing action; the Extract of Horse Chestnut Seeds boasts vasoprotective, draining properties, while the Collagen tones up and tightens the skin.*

3 Hyaluronic Acids,
Collagen

Skin immediately more tightened and fresh-looking. The combined use with the specific cream allows reducing both the length and depth of wrinkles.

Preventing and counteracting the onset of facial wrinkles, attenuating the dark circles and performing an anti-fatigue action.

HYDROGEL PATCH R
*Revitalizing Eye Area Patch
Micro-Wrinkles and Dark Circles*

Hydrogel formulated to perform a revitalizing, de-stressing action. It acts thanks to the presence of the Extract of Grape Leaves rich in Anthocyanosides protecting the microcirculation (improving effect on under-eye bags and dark circles), of the Extract of antioxidant, protecting Pomegranate and of toning, tightening Collagen.*

Extract of Grape Leaves,
Extract of Pomegranate

Dark circles tend to lessen. The continuous use of the product prevents and counteracts the onset of facial wrinkles.

03 OZOCEUTICA FACE

OXYGEN AS SOURCE OF LIFE

“Oxygen is essential to ensure life on earth. Our entire planet feeds on Air, so does our skin.”

OXYGENATION is the key word for a skin that regains its “breath” and harmony.

Ozoceutica Face rewrites the game rules both for a daily care and for a targeted treatment path – perhaps even due to a special rescue request by the skin tissue.

SESAZONE 6000

It is a special **special Sesame Oil bubbled with Ozone**. This ingredient – highly enhanced – can be defined as a “warehouse” of **active oxygen** which is stabilized and bio-available boasting several properties for the cells and skin.

It improves the cell energy and performs an overall **germicidal activity** (antibacterial and antimicrobial).

In addition, it effectively intervenes on skin tissues through a **revitalizing, re-epithelizing, cicatrizing action**.

It is essential for a new, rejuvenated skin which is ready to protect itself against **the environmental stressors**.

Ozoceutica Face is the very high-performance line that exploits the unequalled **Ozonized Oil Sesezone 6000**. The dynamizing, bio-stimulating, revitalizing power of this functional ingredient does not fear any comparison.

BEAUTY SPA

natural resources

500ml

30ml

300g

SKIN CLEANSING

BIO-DYNAMIZATION

REMINERALIZING MASK

IDEAL FOR

Cleansing and purifying while respecting the skin hydrolipidic film. For the whole family and all skin types.

Providing a cell energy charge, speeding up healing processes, optimizing and boosting the supply of the other functional ingredients.

Optimizing the supply of Trace Elements and Mineral Salts, and facilitating the action of the treatment active ingredients.

TREATMENT

CLEANOZONE PLUS

All-over Ozonized Oil Active Cleanser

Micellar gel of gentle surfactants with Ozonized Oil incorporated. It gently cleanses the skin providing the beneficial effects ensured by the presence of the Ozone: purifying action, respect of the hydrolipidic film, skin dynamization.

SUPEROZONE 1200

Hyperconcentrated Ozonized Oil

Thanks to the strong presence of Sesazone 6000 it stimulates the cell activity and helps skin in its natural healing and regenerating processes. The energy surplus provided positively affects skin receptivity, thus contributing to improving the final result of Beauty Spa facial treatments.

O₃-MASK

Face Mask with Alginates and Actives SF

An Alginate-based mask. Alginates are obtained from the cell wall of the thallus of special brown algae in order to create a cast rich in Trace Elements and Mineral Salts. Its functions are many: it remineralizes, it improves hydration by reducing TEWL and, above all, it facilitates the penetration of functional ingredients contained in the treatment products applied before its spreading.

SPECIFIC FUNCTIONAL INGREDIENTS

Sesazone 6000,
Marigold Water

Sesazone 6000

Actimmune™,
Alginates

RESULTS

Purified, refreshed skin. The face immediately looks more oxygenated and vital.

The skin appears vital and healthy, and it optimizes the benefits of treatment products.

The skin appears firm and toned up, while the remineralization ensures a rejuvenated, fresh look.

04 OZOCEUTICA NEOSKIN

SKIN REGENERATION

“In biology regeneration consists in replacing the damaged parts of the body with their identical copies. For the skin this means rebirth.”

REGENERATION is the key word in order to witness a rebirth process of face and beauty. Ozoceutica Neoskin drew inspiration from the notion of “new skin”: to remove the old one to make room for the new through the very valuable supply of Sesazone 6000.

BEAUTY SPA natural resources

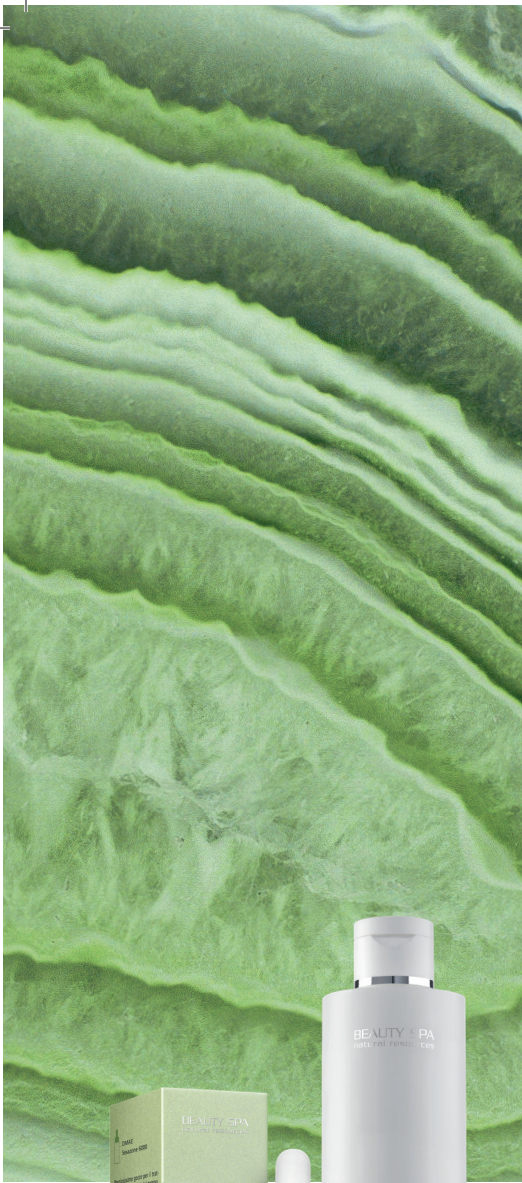

This line is founded on the exfoliating, rejuvenating properties of a series of **Organic Acids** such as Glycolic Acid, Mandelic Acid, Lactic Acid, Lactobionic Acid, Azelaic Acid and many more for a specific, targeted treatment.

These substances – essential in the spa room – are perfected by the **Ozonized Oil Sesazone 6000**, which **dynamizes the skin** and makes it **receptive to the functional ingredients** found in the at home skin care and treatment **products**.

Ozoceutica Neoskin is not only a simple anti-aging line, but also a **high-technology** proposal for a rejuvenated, younger-looking face.

The **Organic Acids** as a tool to intervene on the main acial blemishes.

Not only fine lines, wrinkles and skin aging, but also scars, dyschromias and loose skin.

250ml

250ml

SKIN CLEANSING AND EXFOLIATION

EXFOLIATION AND REGENERATION

IDEAL FOR

Preparing for treatments with Organic Acids.

Remodulating the outer horny layer or preparing the skin for the following treatments.

TREATMENT

PRIM-O₂
Face Micellar Acid Gel pH 3.5

Micellar Gel formulated in order to create the utmost effectiveness conditions for treatments. Not only does it favor the removal of impurities accumulated on the skin, but also the removal of the lipid layer which opposes a barrier effect to the penetration of the treatment functional ingredients and their bio-activity. The special association of Acids allows a strong cleansing.

NEOPEEL 2.5
Mandelic Acid Peeling

Thanks to pH 2.5 Neoskin prepares the skin tissue to receive and optimize the treatments with Organic Acids. The special gentleness of the Mandelic Acid – a key ingredient of this product – allows it to be applied even onto the most delicate skin types, which may exploit its soft exfoliating, renewing action.

SPECIFIC FUNCTIONAL INGREDIENTS

Mandelic Acid,
Lactobionic Acid

Mandelic, Malic and Glycolic Acids

RESULTS

Cleansed, rejuvenated, pleasantly remodulated skin.

Renewed, gently exfoliated, smoothed skin which is receptive to the following functional ingredients.

50ml

50ml

50ml

EXFOLIATION AND REGENERATION

Degree 1 aging, blemishes typical of oily skin (dilated pores) and small skin blemishes.

Degree 2 aging, averagely deep wrinkles, loose skin, loss of skin thickness, moderate scars and average dyschromias.

Degree 3 aging, deep wrinkles, hyperpigmentation, severe dyschromias and serious scars.

OZOPEEL pH 2.0
Regenerating Peeling MILD

A combination of Alpha and Polyhydroxy acids for a pH 2.0 peeling. It consists of Ozonized Oil Sesazone 6000 combined with a pool of Acids: Glycolic, Mandelic and Lactobionic, Gluconolactone, Salicylic Acid and Azelaic Acid. It renews the skin and performs a regenerating action.

Sesazone 6000,
Glycolic, Mandelic,
Salicylic and Azelaic Acids

Skin instantly more regenerated and exfoliated, ready for the treatment of the diagnosed blemish.

OZOPEEL pH 1.5
Regenerating Peeling STRONG

Special mix of Alpha and Polyhydroxy acids combined in a pH 1.5 peeling. It consists of Ozonized Oil Sesazone 6000 combined with Glycolic, Pyruvic, Mandelic and Lactobionic Acids, Gluconolactone and Lactic Acid. It renews the skin and performs a strongly regenerating action.

Sesazone 6000,
Glycolic, Mandelic,
Pyruvic and Lactic Acids

Its use in the context of the professional targeted treatment allows wrinkles to be reduced, skin tone to be improved and dyschromia visibility to be mitigated.

OZOPEEL pH 1.0
Regenerating Peeling VERY STRONG

An intensive peeling formulated for a strong, powerful exfoliation. It contains Ozonized Oil Sesazone 6000 and Gluconolactone synergized with Glycolic, Pyruvic, Mandelic, Citric, Kojic and Lactobionic Acids. Its exfoliating, regenerating action is very intense.

Sesazone 6000,
Glycolic, Mandelic,
Pyruvic and Kojic Acids

Used during Neoskin regenerating treatments, it intensely rejuvenates the skin and counteracts skin spots and scars by attenuating them.

250ml

15ml

NEUTRALIZING TREATMENT

TONING UP TREATMENT

IDEAL FOR

A “quick response” action if, during the use of Organic Acids, any anomalous reactions such as strong itching or ailment occur.

Giving firmness and improving skin tonicity.

TREATMENT

BLOCKPEEL

Basic Neutralizer

Thanks to its formulation (slightly basic pH buffer solution) it instantly blocks the activity of Acids and it softens the skin, preventing its redness. It is an extremely significant product, which is essential in the spa treatment room in case of rejuvenating treatments with Organic Acids.

REPLUMP

Bi-Active Drops

The enhanced Ozone Sesazone 6000 offers an energy surplus that ensures the vitality of skin tissue and the optimization of the benefits offered by DMAE. The latter improves the moisture level, therefore skin plumpiness, protecting against free radicals and performing a tonifying, replumping action.

SPECIFIC FUNCTIONAL INGREDIENTS

Dragocalm,
Boswellic Acid

Sesazone 6000,
DMAE

RESULTS

The action of the Organic Acid is instantly blocked.

Using the product in the targeted treatments favors the facial skin tonifying.

15ml

DERMOACTIVATING TREATMENT

Triggering a “controlled shock” which helps the skin regain its optimum bio-functionality.

SHOCK

Bi-Active Drops

A very high effective combination to stimulate the skin to regain its tonicity and elasticity. Sesazone 6000 dynamizes the skin tissue and provides a burst of energy capable of boosting the action of Copper Peptides. These microsubstances – which can be easily recognized by our body – trigger a “controlled shock” that improves the production of collagen and hyaluronic acid.

Sesazone 6000,
Copper Peptides

Using drops in intensive treatments improves the hydration and firmness of the skin tissue.

15ml

LIFTING TREATMENT

Performing a strong lifting, smoothing, botox-like action.

ULTRALIFT

4-Active Drops

A special formulation with the Botoxblend which is an exclusive of Beauty Spa. It consists of 4 active ingredients which trigger a pluri-powerful mechanism. It acts on the aging signs on the whole, first of all on wrinkles and fine lines. The Peptides contained in the blend mimic the action of the botulin toxin, thus reducing the contraction of mimetic muscles, in this way they perform a smoothing action.

Botoxblend

Using the product in the targeted treatments allows minimizing wrinkles and roughness.

300g

SOOTHING MASK

IDEAL FOR

Soothing and revitalizing the skin tissue.

TREATMENT

MORPHEUS

Soothing and Revitalizing Alginates Mask

An Alginate mold for a balancing, regenerating action. It is essential in the treatments that include an exfoliation with Organic Acids. It refreshes and soothes, giving a very pleasant comfort sensation. It positively acts on the skin hydration, and thanks to the presence of the blue microalgae Spirulina, it boosts the cell vitality.

SPECIFIC FUNCTIONAL INGREDIENTS

Spirulina algae,
Alginates

RESULTS

The skin regains its suppleness and beauty. It also easily recovers its balance and freshness after peeling.

300ml

LIFTING MASK

Performing a lifting effect and soothing, relieving the skin.

LIFTMASK

Regenerating and Lifting Mask

Liftmask employs an active association of biotechnological saccharide substances making up a matrix that ensures an immediate, long-lasting tensor effect, and it performs an anti-pollution action. It exploits Vitamin E, Avenanthramides, Extracts of Blueberry and Licorice to soothe and relieve the skin.

Sesazone 6000,
Glycolift,
Dragocalm

The skin regains its relief and freshness while recovering suppleness and emollience.

200ml

200ml

FINAL EMULSION

Ending the treatment with a soothing, softening action.

Ending the treatment with a redensifying, revitalizing action.

POSTPEEL

Desensitizing and Anti-Reddening Cream SPF 15

A strongly soothing, redness-relief action in order to help the skin tissue regain comfort and well-being after applying the Acids. It effectively ends the treatment thanks to its intensive supply of functional ingredients boasting anti-inflammatory, antioxidant properties like the extracts of Licorice and Blueberry, Avenanthramides obtained from Oat, the biological Hemp Seed Oil and Vitamin E.

Sesazone 6000,
Avenanthramides,
Biological Hemp Seed Oil

The treatment ends with a fresh-looking, smoothed, rejuvenated, perfectly vital-looking skin.

ULTIMA

Redensifying Anti-Oxidant Final Emulsion SPF 15

Ultima exploits the properties stimulating the collagen production of Genistein (also recommended in case of hormonal alterations), the dynamizing action of Sesazone 6000 and the bio-activating “controlled shock” assured by Copper Peptides. In addition, the formulation includes the supply of soothing, softening Hemp Seed Oil.

Sesazone 6000,
Genistein,
Copper Peptides

At the end of the treatment the skin is protected, revitalized and glowing.

05 GENESIS

REBIRTH EFFECT

“Returning to the origins of beauty – the youth - has been a myth for men ever since. However, nowadays preserving it is the only road to travel daily.”

HYDROXYPROLINE AND MARINE COLLAGEN

Genesis exploits two special functional ingredients which stimulate the skin to regain its tone and firmness, at the same time performing a smoothing action.

The **Hydroxyproline** boosts the interaction between fibroblasts and dermal matrix, and it stimulates the reshaping and contraction of collagen fibers, thus **helping the skin tissue keep elasticity and suppleness.**

This action is strengthened by the **Marine Collagen**, rich in some amino acids such as glycine, proline, lysine and hydroxylysine, which are essential in collagen synthesis. It is a **guaranteed rebirth** which incorporates a wonderful **youth effect** in itself.

REBIRTH is the key word for a skin that seems to rewind the tape of time. Genesis is a line dedicated to treating the aging signs and to regaining a beauty that makes vitality, freshness and luminosity its distinguishing features.

Tackling fine lines and wrinkles is just one of the aspects dealt with by this range of products: skin rejuvenation, restructuring and toning up are other essential elements which are instrumental in a real anti-aging treatment path.

BEAUTY SPA

natural resources

5 x 3ml

300g

REMINERALIZATION

RESTRUCTURING ACTION

SMOOTHING MASK

IDEAL FOR

Rebalancing the supply of trace elements.

Dull, stressed skin and for counteracting wrinkles and roughness.

Mature skin which shows apparent wrinkles and fine lines.

TREATMENT

CATALYST
Mineral Catalysing Lotion

INSIDE
Intensive Anti-Age

RITUAL
Pressure Gradient Mask

Remineralizing lotion which is essential to restore the normal physiological conditions of the skin and to rebalance the supply of trace elements necessary for the biological reactions of the skin. It favors the reconstruction of the skin hydrolipid layer after skin cleansing.

It contains marine Collagen and Proline capable of improving the skin structure, besides other prime substances such as Arginine and Aloe vera boasting moisturizing, elasticizing properties. This cocktail gives again hydration to the skin and enriches it in an optimum way. Sheer pampering for your skin.

Mixed with water, Ritual forms a mold rich in Trace Elements and Mineral Salt aimed at facilitating the penetration of the treatment serum (the notion of pressure gradient stems from here). The formulation includes Vitamin C and Acerola Cherry Extract for an optimum antioxidant action, especially recommended for preventing and counteracting aging signs.

SPECIFIC FUNCTIONAL INGREDIENTS

Marine Trace Elements,
Marine Trace Proteins

Marine Collagen,
Proline

Sodium Alginate,
Extract of Acerola Cherry

RESULTS

The skin regains its perfect balance, and it appears visibly healthy and glowing.

The skin regains its firmness, elasticity and hydration.

The skin is smoothed out, glowing and it shows a toned up, firm appearance.

06 PERFECTAGE

THE BALANCE
OF PERFECTION

“The pursuit of perfection is a movement, a tension toward the ideal, which pushes to trigger every resource. Here more than anywhere else, intention is everything.”

PERFECTION is the key word for a skin rebirth project and for a face that glows with a new, conscious beauty.

BEAUTY SPA

natural resources

ANTI-SPOT ACTION

In dermatology it is known that the treatment of skin spots - a complex blemish because it is influenced by time, light and hormonal aspects - requires a synergy of interventions, all aimed at a single goal, but rather following different paths.

Beauty Spa has selected a special mix to tackle skin spots and discolorations at multiple levels: **Glabridin** with anti-tyrosine kinase action to inhibit the production of melanin, **Vitamin C** to stop the production of melanin upstream of the generative process, **Artemisia** to block the release of melanin to keratinocytes by melanosomes, **Angelica** to degrade the excessive melanin present in the spot and **Vitamin F** to eliminate excess melanin and promote cell turnover.

A real “crossfire” boasting a **super-intensive action**.

Rediscovering yourself to the fullest, at any age. With this goal, the **Perfectage** line was created: it focuses on the treatment of skin spots and discolorations (dyschromia), and aimed at enhancing beauty in every season. It is a challenge to time, gravity, the sun and natural laws.

100 ml e 3.38 fl. oz.

100 ml e 3.38 fl. oz.

300ml

100ml

EXFOLIATION

IDEAL FOR

Scrubbing and evening out the skin, preparing it to receive the treatment.

Scrubbing the skin and regulating the production of melanin in localized areas.

TREATMENT

GLYCOPASTE

Whitening Acid Paste with Zeolite and AHAs

Biomimetic formula to effectively renew the skin by performing an exfoliating, evening out action. Zeolite adsorbs harmful substances accumulated on the skin, for a chelating, antioxidant, detoxifying and preventive effect on the onset of spots.

ACID SPOT

Biphasic Regulator Acid for Skin Spots

Biphasic acid solution containing a selection of specific ingredients for the localized treatment of skin spots. The mix of Mandelic and Glycolic Acids exfoliates the horny layer, Phytic Acid performs a lightening action, while Vitamin F regulates the production of melanin.

SPECIFIC FUNCTIONAL INGREDIENTS

Alpha-Hydroxy Acids, Zeolite

Mandelic Acid, Glycolic Acid and Phytic Acid

RESULTS

Renewed, healed skin ready to receive the following treatment phases.

Further renewed, the skin can optimize the benefits of the subsequent treatment products.

150ml

30ml

30ml

SKIN TONIFYING

The prompt balance of facial skin and an immediate comfort sensation.

RELOTION

Biomimetic Repairing Intensive Lotion

Formulated to soothe and rebalance the skin, it exploits biomimetic functional ingredients and highly skin-compatible oils, capable of restoring the hydrolipidic film and counteracting dehydration. The selection of anti-spot functional ingredients modulates the production of melanin.

Vitamins C and F,
Phytosqualane

Decongested, hydrated and even-toned skin, glowing beautifully.

ANTI-SPOT TREATMENT

Treating spots induced by prolonged active skin response.

INFLAMAGING

Super Concentrated Serum for Induced Spots

Vitamin C, Avenanthramides, Glabridin and Mugwort in a biomimetic emulsion that performs a specific action on induced spots, aimed at counteracting skin spots and discolored patches caused by an excessive defense response of the skin.

Avenanthramides,
Glabridin

Over time, skin spots tend to fade and become less evident, revealing a more even-toned, uniform skin.

An anti-stain action targeted for age-related discolorations and imperfections.

AGESPOT

Super Concentrated Serum for Ageing Spots

Liquid crystal biomimetic emulsion, rich in functional ingredients aimed at combating age spots and discolorations. It contains extracts of Angelica and Glabridin, Vitamins F and Avenanthramides with soothing properties, as well as Adenosine with an anti-aging action.

Glabridin, Angelica,
Adenosine

The skin appears more even-toned and smoothed over time, and skin spots tend to visibly diminish.

300ml

200ml

MASK AND MASSAGE

DAY TREATMENT

IDEAL FOR

A treatment aimed at fighting dark spots and discolorations, and mitigating the signs of aging.

Countering skin spots and dyschromia, assuring an immediate even tone to the skin.

TREATMENT

C-MASK
Vitamin C and Phytic Acid Compensating Mask

Special mask and massage formula. Left on, C-Mask generates heat thanks to the occlusive effect, favoring the delivery of the treatment serum and the functional ingredients contained in the mask. When massaged, it stimulates the microcirculation.

CROMACONTROL
Final Lightening and Perfecting Cream SPF 30

A rich, full-bodied formula for an emulsion boasting soothing, protective and evening-out properties. The special blend of functional ingredients is selected for a synergistic action against dark spots, while the microencapsulated pigments give a radiant brightness.

SPECIFIC FUNCTIONAL INGREDIENTS

Vitamin C,
Phytic Acid

Avenanthramides, Adenosine,
Mugwort and Angelica

RESULTS

The microcirculation improves, giving the skin brightness and beauty, while skin spots tend to gradually diminish.

The skin immediately appears brighter and more even toned, while skin spots tend to become less noticeable over time.

07

PERFECTIONIST

SPEAKING OF PERFECTION

“The pursuit of perfection as the touch of the artist. From the care in color choice to the play of light, art is made of sublime beauty.”

WHITENING BLEND

It is an exclusive compound of Beauty Spa made up of three functional ingredients working in synergy for a powerful anti-spot, lightening action: Resorcinol and Bisabolol, Porcelain Flower and Extract of Licorice.

BEAUTY SPA

150ml

SKIN TONING

BALANCE LOTION

No-Spot and Soothing Serum

Formulated for a targeted intervention on skin spots and dyschromias, it performs an anti-spot action and it contributes to improving the overall evenness of facial skin. Adenosine soothes and relieves, while Trehalose and Hyaluronic Acid combined together keep the skin hydrated, firm and toned up.

IDEAL FOR Toning and lightening the skin with spots and dyschromias.

SPECIFIC FUNCTIONAL INGREDIENTS

Whitening Blend,
Adenosine

RESULTS Freshness, luminosity and a more even skin complexion are the results of using this lotion on cleansed skin.

08 DELIDERM

MOMENTS OF TENDERNESS

*“Gentleness is a state of the soul.
It lies in words, in relationships,
in the approach to life.
And gentleness calls for tenderness.”*

Inflammation is one of the key factors at the heart of the strong reactivity of sensitive skin.

Intervening on the inflammation in order to mitigate it means, therefore, **to rebalance the skin tissue**, thus improving skin response to the external stimuli such as couperose, telangiectasia, intense flushing and diffused redness.

It is a complex objective. In order to reach it Beauty Spa has selected a series of functional ingredients which work in synergy: **Extract of Maritime Pine, Boswellic Acid, Physavie**. In addition, **Extracts of Blueberry and Red Grapes, Calmosensine**.

Thanks to this special pool of functional substances, the skin tissue regains its strength and defense capability and can **glow again with beauty**.

TENDERNESS is the key word for a skin that daily rediscovers its original strength. Deliderm takes care of the sensitive, delicate skin by offering it a wide range of high skin tolerability products.

In order to ensure the best results it deploys a series of functional ingredients boasting anti-inflammatory, rebalancing properties which help the skin tissue regain its strength, stability and beauty.

REVITALIZATION

SOOTHING TREATMENT

SOOTHING MASK

IDEAL FOR

Revitalizing and rejuvenating sensitive, delicate skin.

Counteracting redness, intense reactions and inflammation of sensitive skin.

Counteracting redness and inflammation of sensitive skin.

TREATMENT

BIORESET

Epidermal Modulator

The professional ideal product for a deep revitalization and regeneration of the whole skin. Bioreset allows treating the sensitive skin appearing inflamed with xerosis and distressed. It combines in synergy a polyhydroxy acid (Lactobionic Acid) and a special moisturizing complex (Lipomoist).

RESCUE

Anti-Reddening Serum Intensive

A formulation studied in order to act on the skin inflammation and favor its recovery through a mix of functional ingredients aimed at minimizing the inflammatory processes, normalizing vasodilation, reinforcing the wall tone of capillaries and decreasing the skin sensitivity to temperature jumps.

BE-CALM

Soothing Mask Desensitiser

A creamy, pleasant, gentle mask formulated to quickly release the functional ingredients necessary to treat inflamed skin into the skin tissue. Used in synergy with Rescue serum, it counteracts inflammation and controls the excessive skin sensitization.

SPECIFIC FUNCTIONAL INGREDIENTS

Lactobionic Acid,
Lipomoist

Boswellic Acid,
Physavie

Calmosensine,
Eperuline

RESULTS

Using the product within the treatment boosts the normalization of cell turnover, moisture rebalance and skin barrier reinforcement.

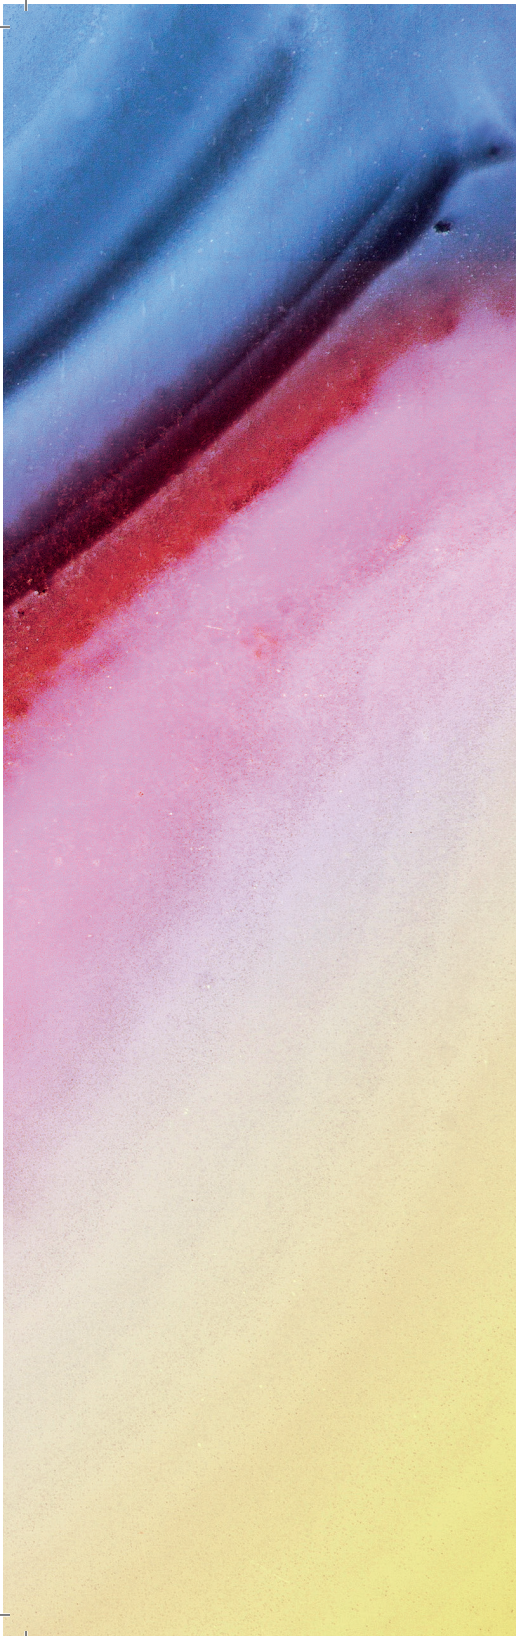

The skin appears more alabaster, desensitized and healed from inflammation.

The skin regains its purity, radiance and a healthy, vital appearance.

BEAUTY SPA
natural resources

THE BODY

Body care not as a mere cosmetic question, but rather as an investment in one's own health.

With this philosophy in mind Beauty Spa deals with the main blemishes of the body. The goal is to restore **balance, wellness and, above all, harmony.** And this harmony translates into functionality, dynamism and beauty.

From spa room treatments to self-care paths, the body appears to be the undisputed protagonist of that balance that even the ancient peoples had acknowledged as **absolute value:**

Mens sana in corpore sano.

09 — OZOCEUTICA BODY

EXCHANGE BETWEEN
OXYGEN AND SKIN

*“Beauty feeds on oxygen.
Let our body breathe the balance.”*

ENERGIZING is the key word for a skin that finds again its energy and ability to get in shape again. Ozoceutica Body is a line dedicated to the body and its three main blemishes: cellulite, adiposity and stretch marks. The results of the treatments in the spa room and at home are guaranteed and enhanced by the fine Sesazone 6000, Sesame Oil bubbled with Ozone.

BEAUTY SPA natural resources

SESAZONE 6000

Sesazone 6000 is the brand new **Sesame Oil bubbled with Ozone** boasting a powerful dynamizing, bio-stimulating activity. Thanks to this special characteristic, it is able to act on the body by enhancing and optimizing the actions of the other functional ingredients of the line.

Notably, it enhances the following actions: **draining action**, which is instrumental in tackling cellulite; **reshaping action**, which is instrumental in treating localized adiposity and fat deposits; **renewing/elasticizing action**, essential for treating and preventing stretch marks.

This functional ingredient shows interesting properties stimulating the **absorption of the Lactic Acid** and regarding the recovery from fatigue. Benefits on the whole body are scientifically proven.

Sesazone 6000 boosts the exponential activation of the functional ingredients found in the treatment path and in the home treatment products. The result is a combination of draining, reshaping, elasticizing performance.

SKIN CLEANSING

SPONGE BATHS
AND ENHANCEMENT

OXYGENATING
RENEWAL

IDEAL FOR

Cleansing and purifying while respecting the skin hydrolipid film. For the whole family and all skin types.

Performing sponge baths preparing to the body treatment or for enriching Beauty Spa products.

Renewing the skin and ensuring a burst of dynamizing energy.

TREATMENT

CLEANOZONE PLUS

All-over Ozonized Oil Active Cleanser

Micellar gel of gentle surfactants with Ozonized Oil incorporated. It gently cleanses the skin supplying the beneficial effects guaranteed by the presence of Ozone: purifying action, respect of the hydrolipid layer, skin dynamization.

HYDROZONE PLUS

Water-dispersible Body Ozonized Oil

Fine water-dispersible oil formulated to perform sponge baths preparing to the treatment or to the pedicure with sea salt. In addition, it can be mixed with other products of the Beauty Spa line: it boosts their energizing, revitalizing properties. It contains Ozonized Oil boasting a dynamizing, bio-stimulating action and draining vegetable extracts of Fucus.

THALASSOZONE PLUS

Oxygenating Dynamizing Body Thalassoscrub

The natural Sea Salt combines with the Ozonized Oil to originate a thalassoscrub boasting renewing, revitalizing, emollient properties. The bio-activating action of Sesazone 6000 is promoted by the exfoliation of the surface horny layer due to the effect of the Sea Salt rubbed onto the skin.

SPECIFIC
FUNCTIONAL
INGREDIENTS

Sesazone 6000,
Calendula Water

Sesazone 6000,
Extract of Fucus Vesiculosus

Sesazone 6000,
Sea Salt

RESULTS

Purified, refreshed skin. The face immediately appears more oxygenated and vital looking.

The skin, dynamized energized, appears fresh looking and ready to undergo the treatment.

The skin is gently rejuvenated. In addition, the peripheral circulation is improved as well as the oxygenating effect, which boosts the whole treatment.

150ml

REGENERATING PEELING

Treating the critical areas of the body, especially focusing on stretch marks and those areas subject to loosen skin such as inner arms, inner thighs, glutei and breasts.

CRITICAL AREA PEEL

Renewing Regenerating Body Peeling pH 1.0

It exploits a targeted pool of exfoliating, renewing Organic Acids such as Glycolic Acid, Mandelic Acid, Malic Acid and Pyruvic Acid. In addition, the Gluconolactone acts as a bio-rebalancing agent. The Ozonized Oil deserves a special mention: it energizes and dynamizes the skin tissue, thus ensuring its optimum bio-functionality.

Sesazone 6000,
Glycolic, Mandelic, Pyruvic and Malic Acid

The skin becomes radiant and vital looking, ready to receive the following phases of the treatment.

250ml

RENEWING PEELING

All skin types and all seasons. Indicated in the treatment paths preparing for the sun, firming and anti-spot treatments, it gently renews the horny layer.

MANDELIC PEEL

Renewing Bio-stimulating Body Peeling pH 1.5

This special renewing peeling exploits not only exfoliating Organic Acids (Mandelic and Malic), but also strongly moisturizing and bio-rebalancing functional ingredients such as Gluconolactone and Lactobionic Acid and antioxidants (Phytic Acid). A key role is played by the bio-stimulating action of Sesazone 6000.

Sesazone 6000,
Mandelic, Malic, Phytic and Lactobionic Acid

The skin is gently renewed and appears smoother, glowing and, in general, fresh looking.

250ml

10x10ml

ENHANCEMENT

DYNAMIZING MASSAGE

RESHAPING

IDEAL FOR

Optimizing the benefits of the treatment products and enhancing their outcome.

Treating the blemishes stemming from cellulite and adiposity with a targeted massage.

Treating the blemishes stemming from adiposity and cellulite in its different stages in an incisive, effective way.

TREATMENT

SUPEROZONE ACTIVATOR
Intensive Body Revitalizer

Spray containing a mixture of natural oils enzymatically activated in order to maximize the bio-availabilities and the release of the fatty acids of Oils as well as the effectiveness of the functional ingredient. Sesazone 6000 dynamizes the skin making it more receptive toward the subsequent functional ingredients.

FOSFOZONE PLUS
Bio-Energizing Body Oil with Active Ozone and Phosphatidylcholine

An energizing action for the skin tissue and an intense bio-stimulation. It exploits Sesazone 6000, Phosphatidylcholine and Capsicum extract for a synergistic, intensive effect aimed at boosting the lipolysis, reducing the lipogenesis and improving the microcirculation.

OZONE SLIM
Shaping Bio-Activing Body Solution

The presence of Sesazone 6000 intervenes on the correct energy supply and on cellular dynamism, while the liposoluble extracts (Gelidium Cartilagineum alga, Centella Asiatica and Coffee) provide a reshaping effect of the whole silhouette.

SPECIFIC FUNCTIONAL INGREDIENTS

Sesazone 6000,
Oleosoft

Sesazone 6000,
Phosphatidylcholine

Sesazone 6000,
Gelidium Cartilagineum

RESULTS

The skin shows a significant improvement in its moisture level and elasticity, and it is ready to optimize the properties of the subsequent functional ingredients.

The skin is dynamized and bio-stimulated, and it is more receptive toward the subsequent functional ingredients.

The draining, lipolytic action contributes to remodelling the silhouette with benefits on adiposity and cellulite.

10x15ml

STRETCH MARKS TREATMENT

Treating, white, red-purple stretch marks even in the critical areas such as breasts, inner arms and inner thighs.

ELASTINE

Stretch Mark Intensive Serum

Formulated to intensely nourish the skin, rebalance it and giving it elasticity, it contains Sesazone 6000, Vitamins PP and E, Panthenol and Olive Oil, Flaxseed Oil, Almond Oil and Borage Oil which are enzymatically activated. Thanks to its strongly restorative ability, it promotes the recovery following the application of Ozoceutica Acids.

Sesazone 6000,
Oleosoft

Hydrated, glowing skin characterized by a better elasticity which entails benefits on the existing stretch marks and prevents the onset of new ones.

1000ml

ADIPOSIITY TREATMENT

Treating the blemishes stemming from adiposity (localized fat deposits and generalized fat).

LIPOZONE MASK PLUS

Body Shaping Gel Mask

Gel body mask enriched by the bio-stimulating Sesazone 6000 and a pool of functional ingredients known for their lipolytic and draining properties (Escin, Caffeine, Theophylline). It boasts a partially occlusive structure, which allows favoring the absorption of the functional ingredients contained in the treatment vials.

Sesazone 6000, Extract of
Escin, Caffeine, Theophylline

The treatment with lipolytic, draining functional ingredients improves the whole silhouette with apparent benefits on adiposity.

10 ATLANTIS BIO- RESEARCH

ACTIVE MIX FOR THE BODY

*“There is a force in nature
that may become a resource
at the service of the
efficiency of our body.”*

LIPOLYTIC FUNCTIONAL INGREDIENTS

The Atlantis Bio-Research line exploits a synergy of several functional ingredients boasting properties which inhibit lipogenesis and stimulate lipolysis. In this way it **intervenes on adipocytes** – an essential, critical element for treating cellulite.

A key role is played by special **Peptides**, targeted complexes whose intervention leads to a decrease in the adipocyte volume and in the pressure on the circulatory system and by **Caffeine**.

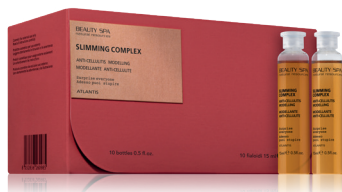

The latter **stimulates the draining and removal of stagnant liquids** (anti-edematous function), and it boosts the mobilization of fatty acids in the adipose tissue. In addition, it promotes the intracellular phosphodiesterase, boosting the lipolysis. Nothing short of a miracle, but rather **apparent benefits**.

LIPOLYSIS is the key word for a skin that appears decongested, active, vital. Atlantis Bio-Research treats the more complex blemishes such as cellulite characterized and worsened by several factors. Treating it means to deploy a successful mix of products, methods and treatment paths.

The best selection of functional ingredients allows developing high performance formulations which effectively treat also the most complex blemishes.

BEAUTY SPA

natural resources

10x15ml

INHIBITION OF LIPOGENESIS

IDEALE PER

Attenuating the blemishes typical of cellulite, among which the orange peel effect, and improving the silhouette.

TRATTAMENTO

SLIMMING COMPLEX *Anti-Cellulitis Modelling*

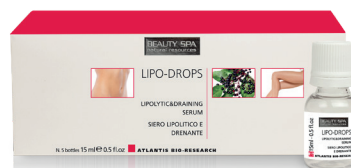

During the anti-cellulite treatment, the application of muds and massage convey the functional ingredients of Slimming Complex into the skin tissue. There the product inhibits the formation and swelling of adipose cells, it stimulates the process of “melting” the stored fat and improves the microcirculation.

ATTIVI SPECIFICI

Lipolytic Tripeptide,
Theophylline

RISULTATI

Cellulite and localized fat deposits are progressively minimized.

5x15ml

STIMULATION OF LIPOLYSIS

Intervening on the cellulite blemishes, stimulating the lipolysis and improving the skin microcirculation.

LIPO-DROPS *Lypolitic & Draining Serum*

In order to effectively treat the body areas affected by the cellulite-induced blemishes, a super-concentrated serum very rich in lipolytic functional ingredients. Its exclusive formulation makes it a high performance product with proven results.

Glucine,
Coffee Extract

Fat pads and orange peel effect are progressively reduced over time.

1000ml

SLIMMING MUD

1000g

SLIMMING MASK

1000ml

IDEAL FOR

Performing a draining action and improving the microcirculation with benefits for the whole silhouette.

Boosting the lipolysis and toning up the skin tissue. For skin affected by cellulite blemishes and localized adiposity.

Attenuating the critical areas and toning up the skin.

TREATMENT

ALGAE MUD
Zone Reducing Mud

The high salt content of Algae determines an osmotic effect that stimulates the draining of the stagnant fluids typical of cellulite. Clays absorb the surface waste of the body, thus completing the previous action. It contains botanical extracts of Horse Chestnut and Butcher's Broom boasting a toning action, which also protects the circulatory system.

VOLCANIC ASH MASK
Lipo-Reducing Mask

A high performance formula for a double action on the body: lipolytic thanks to the application under occlusion that enhances and exploits the properties of the functional ingredients contained, and compacting and toning thanks to the special massage made effective by the specific product texture.

APOCALYPSE
Volcanic Reducing Gel

A specific, one-of-a-kind formulation, an immediate benefit for men and women alike. For the man it is a stimulation to slim down and tonify the abdominal area and glutei. For the woman it means an intense draining, the thinning of adipose layers and an overall firming of the critical points such as belly, glutei and thighs.

SPECIFIC
FUNCTIONAL
INGREDIENTS

Alga Laminaria and Alga Fucus, Extracts of Horse Chestnut and Butcher's Broom

Volcanic Clay of Morocco, Caffeine

Nicoment, Pro-Sveltyl OP

RESULTS

The intervention of Algae Mud contributes to draining and reducing the adipocyte volume, also decreasing the pressure on the circulatory system.

The time during which the mask is left on to favor the penetration of functional ingredients and the functional massage represent a successful bond for a more shaped, toned body with a luminous, smoothed skin without the orange peel effect.

The silhouette is progressively reshaped. In combination with a hypocaloric diet, it enhances the effects of the slimming path and prevents sagging skin.

300ml

RESHAPING MASSAGE

Performing a reshaping, draining, toning and bio-activating massage.

ALGAE PROFESSIONAL
Remodelling Body Cream

Microemulsion formulated to best express the art of massage and exploit the most recent information in the treatment of the subcutaneous fat layer. It contains substances acting on the processes of lipid metabolism, substances acting on circulation and substances strengthening the skin structure.

Extract of Caffeine,
Lipolytic Tripeptide,
Extracts of Algae and Centella

A sensation of lightness and wellness for the treated areas. Blemishes are minimized with apparent benefits already after a few sessions.

300ml

DRAINING MASSAGE

Performing a draining action with benefits on the microcirculation.

REDUZONE
Draining and Vasotonic Functional Massage

Microemulsion conceived to allow the gradual release of a pool of functional ingredients aimed at improving the microcirculation and regulating the adipocyte biochemistry during the massage. It favors the reduction of localized edemas by eliminating the metabolic wastes.

Redulite,
Liporeductyl

The treated areas appear fresh looking and decongested, and they are characterized by a healthy glowing and a pleasant lightness sensation.

300ml

STIMULATING MASSAGE

Performing a stimulating massage characterized by a pleasant sensation of heat.

THERMICA
Stimulating Cocoa Massage

It contains substances with an experimented vasodilating action, which do not cause the traditional erythematous surface irritation of the hyperemizing creams. Special extracts such as Cocoa and Fucus act on the adipocytes, slowing down their formation and swiftly emptying them.

Caobromine,
Caffeine

Used during the treatment, Thermica allows for the optimum recovery of the skin suffering from cellulite blemishes.

11 SILHOUETTE MODELLING

THE SHAPE
OF BEAUTY

*“I look at the profile of your body and
I believe I could recognize it among
a crowd, even in a hundred years.
Your shape is your essence.”*

RESHAPING is the key word for a body that transmits energy, lightness and positivity. Enhancing one's own body, helping it in the daily task of tackling aging and bad habits is made possible by the precious Silhouette Modelling family dedicated to the balance recovery.

BEAUTY SPA

natural resources

BEAUTY BODY FOOD

With this philosophy in mind Beauty Spa proposes a range of **products formulated to reshape the body**, favor slimming and ensure a detoxifying action.

The universe from which the key functional ingredients of the line are obtained concerns the food world and encompasses the Amazon forest as well as our local fields. Its textures are undoubtedly captivating: **scrubs, foams, waxes and fluids.**

An accurate selection of products capable of offering an unexceptionable response.

The *perfect shape*, the harmony of the silhouette, the pursuit of the best version of oneself: the body expresses our habits and our lifestyle, our passions and our inner world.

EXFOLIATION

SKIN RENEWAL

RESHAPING

IDEAL FOR

Gently exfoliating and renewing the body skin, supplying lipolytic functional ingredients.

Exfoliating the body skin and preparing it to the functional treatment.

Reshaping the body and minimizing the blemishes of localized adiposity.

TREATMENT

OCEAN SCRUB *Reducing Body Scrub*

Functional scrub formulated to effectively renew the skin thanks to the Perlite – a pure mineral of volcanic origin. It also makes use of the lipolytic, toning and decongestant action of an exclusive botanical complex to promote the metabolism of adipocytes and boost microcirculation, thus allowing the whole silhouette to be reshaped.

GLYCOTON *Glycolic Acid Body Exfoliator*

Glycolic Acid works by loosening the bonds between corneocytes, triggering a very intense surface exfoliation and allowing new cells to return to the surface layer of the epidermis. In this way it promotes the skin renewal, stimulates the production of collagen and maintains the elasticity and tone of the entire skin system.

FIT COMPLEX *Modelling Body Spray*

Inspired by the notion of Beauty Body Food, it is an “explosive” spray containing a synergistic blend of functional ingredients with lipolytic and anti-lipogenic properties, such as Carnitine, Escin and Caffeine, a botanical complex with a reducing action and a touch of Frescolat and natural Menthol to improve microcirculation.

SPECIFIC FUNCTIONAL INGREDIENTS

Perlite,
Botanical Slimming Complex

Glycolic Acid,
Extract of Pineapple and Papaya

Carnitine,
Escin and Caffeine, Frescolat

RESULTS

The skin appears fresh, decongested and vital looking.

The skin appears fresh, regenerated and glowing. It is also ready to receive the benefits of the subsequent treatment products.

The result is an immediate sensation of lightness with a progressive cosmetic and functional improvement of the areas being treated.

1000ml

RESHAPING MASK

Treating the body skin affected by cellulite and fat deposits performing a remodelling, toning action.

BLACK DETOX

Hot Coal Body Mask

It contains a botanical complex with lipolytic action stimulating cellular metabolism, Black Coal boasting detoxifying properties and a special heating agent capable of boosting skin microcirculation and enhancing the lipolytic action of the product.

Black Coal,
Botanical Slimming Complex

Black Detox promotes firming and slimming with benefits also in terms of recovery from cellulite.

1000ml

FIRMING MASK

Performing a skin toning action with benefits in terms of redefining the silhouette.

TONE UP

Firming Total Body Mask

A product to enhance the harmony of the silhouette and give compactness and firmness to the treated areas. It makes use of Glycosaminoglycans and selected botanical functional ingredients to ensure an intense moisturizing action, which translates into a more toned, firmer skin.

Glycosaminoglycans,
Extract of Licorice Root

More toned, firmer, well-hydrated skin with a healthy glow.

1000ml

500ml

FIRMING MASK AND MASSAGE

FUNCTIONAL MASSAGE

IDEAL FOR

Helping the skin recover its tone and bio-functionality.

Performing a functional massage with the most recommended manual skill, controlling its duration and intensity, fully respecting the skin.

TREATMENT

HONEY WAX
Body Mask & Massage Wax

A structure formulated for a dual action: left in place, Honey Wax releases its load of functional ingredients selected to promote skin remodelling and nourish the skin. Massaged immediately after laying, it allows perfecting the treatment with the most suitable manual skills for the specific blemish.

DERMOIL
Oil for Professional Massage

A natural-based oil, free of mineral oils, the result of research studies conducted with massage professionals. Dermatologically tolerated thanks to its special formulation, it is gradually absorbed and allows prolonging and managing the massage technique in the most appropriate way.

SPECIFIC
FUNCTIONAL
INGREDIENTS

Honey Extract,
Vitamins PP, E, F

Sweet Almond Oil,
Olive Oil

RESULTS

The body tends to remodel itself and the skin to acquire greater firmness and plumpness. Its brightness is exalted.

The massage is pleasant and prolonged, while the skin regains its vitality and nourishment.

300ml

FINAL EMULSION

Ending the body remodelling, toning treatments. For all skin types.

MILK & FRUIT

Moisturizing and Silkening Cream

A gentle hydration, the pleasure of a texture that caresses the skin and a cascade of functional ingredients with emollient, velvety and silky properties. Immediately after cleansing, it takes care of the body skin helping it find its optimum hydro-lipid balance.

Hydrolyzed Vegetable Proteins,
Trehalose

The skin acquires a very fresh, ultra-velvety touch, and it appears perfectly hydrated and treated.

300ml

FIRMING MASSAGE

Performing targeted massages specific for the skin appearing dull and toneless.

PLEASURE

Firming Vitamin Massage

An emulsion formulated for an effective massage with a toning, firming action. Pleasure allows the beautician to optimally perform the required manual skills, and it contains a pool of anti-aging, toning and elasticizing functional ingredients.

Cocoa Butter,
Extract of Green Tea

The skin is hydrated and radiant. The massage and its manual skills are characterized as especially pleasant and effective.

WINE
ELIXIR

250ml

6x15ml

EXFOLIATION

ANTIOXIDANT ACTION

IDEAL FOR

Exfoliating the body skin and preparing it for the subsequent treatment products. For all skin types.

Performing treatments aimed at giving again a younger appearance, plumpness and luminosity to the skin.

TREATMENT

SUGAR SCRUB WITH TARTARIC ACID

A beneficial natural peeling with an antioxidant action enhanced by the physical action of Sugar and by the softening action of Alpha-hydroxy acids, among which the Tartaric Acid is the main one. It renews the horny layer, increases the moisture level by making the underlying “younger and fresher” cells reach the surface, and prepares the skin to receive the Grape functional ingredients.

CONCENTRATED RESVERATROL

A very powerful antioxidant action with a high performance double mechanism. The Concentrated Resveratrol counteracts the harmful action of the Reactive Oxygen Species (ROS) and positively affects fibroblasts and keratinocytes.

SPECIFIC FUNCTIONAL INGREDIENTS

Malic and Tartaric Acids, Sugar in granules

Resveratrol

RESULTS

Exfoliated, regenerated skin with a velvety, hydrated touch.

Dynamic, vital-looking skin which is maintained fresher looking, hydrated and active over time.

RESVERATROL

Polyphenol of the Stilbenoids class, **Resveratrol is found in Grapes** and, in considerable amounts, **in Wine**. It is a molecule that is the subject of several research studies which vouch for its antioxidant properties, stimulating the cellular life and anti-wrinkle properties.

Its antioxidant action is twofold: it acts both as a chelator of iron and copper ions (it prevents the formation of ROS), and as a “**radical scavenger**” (it blocks the action of ROS).

Resveratrol also boasts **soothing, anti-inflammatory, smoothing properties improving** the peripheral circulation (microcirculation). It also gives plumpness and luminosity to the skin, which appears younger, by stimulating cell proliferation and the synthesis of collagen and inhibiting the enzymes involved in the collagen degradation.

1000ml

ANTI-AGING MASK

Performing anti-aging and ultra-nourishing treatments for the whole body.

GRAPEJUICE MASK

A double value for this total body mask to be left on: on the one hand, it takes care of the skin and its beauty by exploiting the anti-spot and distinctly anti-aging properties of the Grape Polyphenols. On the other hand, it acts on the skin structure and its robustness to give the whole body firmness and tone.

Leaves of Red Grapes,
Lipomoist

Very bright, hydrated, gently velvety skin.

500ml

ANTI-AGING MASSAGE

Performing reshaping, activating massages for the whole body.

GRAPE SEEDS OIL

The essential support for a satisfying, anti-aging massage aimed at reactivating the microcirculation, eliminating metabolic waste and restoring the bio-functionality of the skin tissue.

Grape Seed Oil,
Vitamin E

The skin regains its dynamism, luminosity, beauty and an ultra-velvety touch.

12 TREAT KIT

IN 3 SESSIONS

“With time and with skin it is never a matter of quantity, but of quality.”

INSTANTANEOUSNESS is the key word, inspired by the rhythms of modern life and the need to find quick and smart solutions. To try a new treatment path, to quickly deal with a specific blemish or to give immediate response to those who are always in a hurry. Effectiveness lies in quality.

BEAUTY SPA natural resources

Beauty Spa kits embody the wisdom of state-of-the-art formulators, the performance capacity of latest BEAUTY BODY FOOD generation functional ingredients and the absolute certainty that skilful hands can turn three sessions into a success.

The Performance kits contain the high-performance products of the body treatment they refer to.

DRAINING TREATMENT

IDEAL FOR

Treating subjects with lymphatic stasis and water retention, compensating for the effects of sedentary lifestyle and relieving the sense of heaviness of the legs, even in pregnancy.

TREATMENT

DRENAPLUS *Ultra Draining Body Treatment*

A kit boasting an intensive draining action designed to improve microcirculation and reshape the figure thanks to the elimination of stagnant fluids. Ideal in case of cellulite and water retention. The content of the kit is suitable for 3 treatments.

KIT PRODUCTS

Drenabooster, Ozobend

RESULTS

They are instantaneous: an immediate draining and reducing effect, accompanied by a feeling of “emptying” and lightness.

LIPOLYTIC TREATMENT

Treating cellulite and fat pads, completing the weight loss path with intensive reshaping action, counteracting tissue tone loss and recovering firmness.

LIPOLIFT *Lipolytic and Restructuring Body Treatment*

A kit dedicated to those who want to lose excess fat and redefine their silhouette, attenuating the “orange peel skin” effect typical of cellulite. The content of the kit is suitable for 3 treatments.

Lipolift, Ozobend

Treatments in sequence activate a kind of “metabolic awakening” that helps to reshape the figure in a clear way session after session.

The Treatment kits contain the products necessary for 3 complete treatments.

REDUCING TREATMENT

Getting a pleasant “wow effect” in a few minutes. Designed for young people, it is a perfect treatment path for low budgets.

OZONE SHOCK

Fat-Reducing Body Treatment

A kit for 3 treatments boasting a reducing and slimming action to be proposed to those who wish to obtain visible, satisfactory results in short and affordable times. The shock effect is guaranteed by the intensive stimulation of the Ozone.

Mandelic Peel, Fosfozone Plus,
Lipozone Mask Plus, Milk&Fruit

Thanks to the dynamizing contribution of the Ozonized Sesazone 6000 Oil, the remodeling effect is visible since the very first session and is perfected with the next sessions.

OXYGENATING FACIAL TREATMENT

Offering a burst of oxygenating energy to the facial skin to help it regain its optimal bio-functionality.

OZONE C

Oxygenating Facial Treatment

A kit for 3 treatments which base their bio-stimulating, revitalizing and oxygenating effectiveness on the Ozonized Oil Sesazone 6000 and Vitamin C. It is essential at least every change of seasons.

Cleanozone Plus, Biopeel, Superozone 1200,
Hyalu-C, O₃-Mask, Postpeel

The bio-stimulating burst of the Ozone gives the face vitality and wellness, which translate into extraordinary brightness and a fresh, regenerated appearance.

13 BEAUTY SERVICE

THE CARE OF DETAILS

*“Details make perfection
and perfection is not a detail.”*

ATTENTION is the key word, to be perfect and trim, from head to toe. Beauty Spa has also dedicated a special line to the feet, with high-performance formulations, tasty and pleasant to use.

Our body and face care cannot ignore the attention to details, such as a velvety hand, bright lips or feet ready for the most beautiful jewel sandals.

FEET DREAM

BEAUTY SPA
natural resources

WITH WINGS ON FOOT

“Every long journey begins with a first step.”

Our feet are the ones that accompany us every day, literally taking us to our destination.

200ml

RENEWING SCRUB

FOOT SCRUB

Professional Intense Renewer

Special paste cream formulated with microgranules of different granulometry for an intense exfoliation of the feet skin. It minimizes roughness and callusity, offering a velvety, fresh touch. It prepares the skin to receive the benefits of subsequent treatment products.

IDEAL FOR Renewing the skin of the feet and preparing it to the professional treatment.

SPECIFIC FUNCTIONAL INGREDIENTS

Pumice,
Extracts of Organic Sage,
Mint, Thyme

RESULTS Feet appear fresh and hydrated. Roughness and thickness tend to attenuate.

150ml

INTENSIVE EXFOLIATION

CALLUSTOP GEL

Intense Exfoliating Feet Gel

An intense gel with a strongly basic pH boasting a keratolytic action. Left on for twenty minutes, it “macerates” the skin of the foot, facilitating the pedicure and reducing the use of traditional mechanical instruments.

IDEAL FOR Intensely exfoliating the skin of the feet, especially the thickened areas with calluses.

SPECIFIC FUNCTIONAL INGREDIENTS

Mix of basic pH substances

RESULTS Calluses and thickness are significantly minimized, thus making the pedicure easier.

200ml

FINAL EMULSION

FOOT MASSAGE

Refreshing & Nourishing Feet Cream

A light emulsion with a dry effect for optimal hydration and softness of the skin of the feet. Characterized by a pack of polar oils that are quickly absorbed and by an absorbent texture, it guarantees an exceptional skin feel.

IDEAL FOR Completing the feet treatment, restoring hydration and emollience.

SPECIFIC FUNCTIONAL INGREDIENTS

Nem Oil,
Extracts of Organic Sage,
Mint, Thyme

RESULTS The skin of the feet appears fresh and velvety and very soft.
