CREATING BEAUTY IS ART.

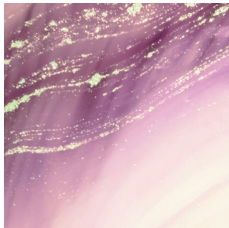

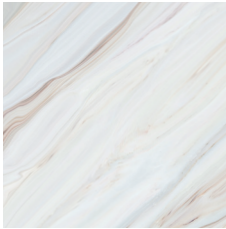

For this reason Beauty Spa employs its exclusive knowledge. State-of-the art technologies, a continuous dermatological research, high-performance proven, safe functional ingredients inspired by nature.

And, even more, cutting edge formulations, competent manual skills, one-of-a-kind treatment paths and effective synergies.

Beauty Spa interprets and hastens trends and needs of the market for the face and for the body, thus offering innovative solutions which have roots in the scientific rigor.

Inspired by nature,
led by science.
Beauty Spa embraces all of this:
a new form of art.

THE FACE

How we present ourselves to the world and the care we dedicate to our face are our best introduction.

Regardless of our features and individual characteristics, it is **the attention toward our skin and our beauty** that distinguishes us. A **well cared face** is a first, important step for good social relations.

The face care starts from a requirement: **everyday life**. Beauty Spa professional treatments perfectly combine with the **home treatments** which strengthen their values and benefits.

Our face says it all.
Let it express itself at
its best.

01 **AQUA CONCEPT**

COMMUNICATION
BETWEEN SKIN AND WATER

*“A hydrated skin is a healthy skin
capable of dealing with the environmental
stressors, the passing of time, stress.
Without a correct hydration, beauty cannot exist.”*

HYDRATION is the key word for a skin
that learns to regain its correct hydro-lipid
balance which keeps vitality and beauty
over time.

BEAUTY SPA natural resources

AQUABLEND

It is a **super-hydrating** blend made up of a mix of vegetable **natural sugars**, **Hyaluronic Acid** and **Natural Moisturizing Factors (NMF)**, a vitamin pool and oat-derived **Avenanthramides**.

Thanks to this special synergy, Aquablend **boosts the hydration level of the horny layer**, reduces the TEWL (Transepidermal Water Loss), performs a humectant action, rebalances the mix of NMF and counteracts redness and inflammation.

Its combined action is especially intensive and ensures a **natural rebalancing, anti-aging effect**.

The daily cleansing ritual is enhanced by innovative formulations, state-of-the-art emulsifying systems and the special *Aquablend*.

150ml | 50ml

200ml | 50ml

SKIN CLEANSING

IDEAL FOR

Removing make-up in the eye-lip area.

Cleansing the whole face, especially for dry skin.

TREATMENT

DUO

Gentle Eye Make-Up Remover

An innovative formula which exploits a system of pre-emulsified oils to make make-up removal in the face and around the eyes effective and very gentle. The make-up is melted by oils and incorporated into micelles, then removed with the toner. The skin-feel is purely velvety.

HYDRAMILK

Gentle Moisturizing Cleansing Milk

Hydration while cleansing thanks to a special ethoxylate-free liquid crystal emulsion. It employs Glucose-derives gentle emulsifiers capable of melting the impure skin particles. It also contains the exclusive super-moisturizing Aquablend. Ideal every day: morning and night.

SPECIFIC
FUNCTIONAL
INGREDIENTS

Cetiol Ultimate
Sunflower Seed Oil

Aquablend,
Extract of Gallic Rose and Damask Rose

RESULTS

Thoroughly cleansed skin, make-up removed. The skin appears velvety and hydrated.

Cleansed, fresh-looking skin with an accentuated velvety, soft touch. The moisture level is always optimum.

200ml

50g

SKIN CLEANSING

Cleansing the whole face, especially for combination skin.

Cleansing the whole face, especially for combination to oily skin.

HYDRAMOUSSE

Moisturizing Cleansing Mousse

Fluffy exactly like a mousse this special cleanser rediscovers the ritual of cleansing. Its composition mimics the skin Natural Moisturizing Factor in order to preserve its correct moisture level. Meanwhile, surfactants boasting a great skin tolerability ensure effectiveness and pleasantness.

PURITY POWDER

Purifying Face Cleanser

An impalpable powder of natural soap (isetionate), with incorporated Blue Clays and mineral powders based on Porous Silica. Cleanses combination and oily skin in a gentle way. It also performs a soothing, mattifying and purifying action.

Aquablend

Porous Silica,
Bamboo and Citrus Scrub

Thoroughly cleansed, decongested skin glowing with radiance.

Cleansed, smoothed skin, luminous yet not shiny, with less impurities and a finer texture.

150ml | 50ml

150ml

50ml | 15ml

SKIN TONING

DAY TREATMENT

IDEAL FOR

Moisturizing and soothing after cleansing. For all skin types.

Minimizing pores and mattifying skin after cleansing. Ideal for combination skin.

Ensuring an optimum moisture level and maintaining the skin functionality.

TREATMENT

AQUALOTION

Wrapping Moisturizing Lotion

A nano-emulsion that embraces the wealth of oils and functional ingredients boasting hydrating, nourishing properties. It helps soothe the skin by performing a soothing, calming action. Its innovative formulation makes Aqualotion a treatment product to all intents and purposes with a very light, strongly sensory texture.

FINE TONER

From Normal to Oily Skin Lotion

A micro-emulsion rich in functional ingredients among which the extract of Rose Hip boasting a sebum normalizing, rebalancing action. Special texturizing substances produce a mattifying effect and favor the reshaping of pores.

HYDRA

Face Moisturizing Day Treatment SPF15

Light, pleasant emulsion, whose fresh structure blends perfectly on the skin, offering an imperceptible skin-feel. It contributes to boosting the moisture level of the horny layer, counteracting redness, rebalancing the mix of the Natural Moisturizing Factor (NMF) and preventing the onset of wrinkles.

SPECIFIC
FUNCTIONAL
INGREDIENTS

Aquablend,
Extract of White Peony

Aquablend,
Extract of Rose Hip

Aquablend,
Extract of White Peony

RESULTS

A very thin layer covers the skin, keeping its hydration and luminosity. The whole complexion gets smooth.

Skin texture is perfected. Shininess is eliminated leaving room for luminosity and pores are minimized.

Perfect for younger skin types or proposed as an alternative to the specialized creams, it makes the face hydrated and luminous.

50ml

50ml

50ml

NIGHT TREATMENT

INSTANT HYDRATION

Counteracting redness and irritations, and maintaining the correct level of skin moisture.

Moisturizing and soothing after cleansing. Ideal for dehydrated and combination skins.

Moisturizing, soothing the skin, and fixing the make-up.

RICH CREAM

Moisturizing for alipic skins

Super-intensive emulsion containing a high percentage of Shea Butter which, thanks to a special emulsifier, creates a thin but highly moisturizing film on the skin. It also performs a softening and regenerating action, with benefits in terms of preventing the signs of aging.

SNOW CREAM

Moisturizing for combination skins

A pleasant and refreshing sorbet effect texture for this night cream, that moisturizes the combination skin without weighing it down and acts as if it were a mask.

MIDDAY MIST

Moisturizing Make-up Fixer

Refreshing spray with an impalpable texture, enriched with a pool of functional ingredients with moisturizing and velvety properties. It fixes the make-up and softens the skin, performing a soothing action and giving a pleasant sensation of freshness. Repeatedly vaporized, it guarantees a pleasant wet-look effect.

Aquablend,
Shea Butter

Extract of Burdock,
Extract of Rose Hip

Panthenol, Extract of Gallic Rose
and Damask Rose

In the morning the skin is deeply hydrated, soft and plump. The complexion is even toned and its luminosity is visible, yet discreet.

The sebum-absorbing, mattifying and dermo-rebalancing properties of the contained contents make the face smooth and luminous, with a well-groomed and healthy appearance.

The skin appears radiant, hydrated and healthy. The makeup lasts longer. In addition, repeated applications guarantee an extremely fascinating wet-look.

02 THE SPECIALIST

SKIN SPECIALISTS

“The expertise is the key prerequisite to reach the best results. Specialists treat the details without overlooking the overall view.”

Skin types are not the same. They vary from person to person, but also the same face shows typical, exclusive characteristics in different points.

The Specialist line was created from this perspective: it takes care of **oily skin** or **dry skin**, of those who suffer from **skin dehydration** and of those who show **shiny, impure areas** under normal conditions. It is a super-customized line which deals with the main facial needs with wide dermatological knowledge.

For this reason it comes in an **Oily** version for oily, combination and impure skin; in a **Dry** version for dehydrated and dry skin and in an **Eye Tech** version for the eye contour area.

SPECIALIZATION is the key word for a face that regains its balance, beauty and charm.

BEAUTY SPA
natural resources

30ml

50ml

HYPER-HYDRATING ACTION

DAY TREATMENT

IDEAL FOR

Moisturizing the skin by providing it with a velvety skin feel.

Moisturizing the skin and protecting it against UV radiation and pollution.

TREATMENT

HYALUFILL

Cross-Linked Hyaluronic Serum

A highly moisturizing serum for the most demanding skin. The traditional Hyaluronic Acid molecules in the cross-linked version are linked in such a way as to form a lattice capable of ensuring a very high moisturizing capacity. They also form a very thin film that reduces TEWL (Transepidermal Water Loss), thus ensuring hydration and emollience.

CITYMOIST

Antipollution Urban Cream SPF 15

A daytime emulsion formulated for urban contexts, which brings into play a pool of functional ingredients selected for their ability to tackle the action of the particulate matter (PM) and the effects of UV, Infrared and Blue rays, while ensuring a soothing, moisturizing action.

SPECIFIC
FUNCTIONAL
INGREDIENTS

Cross-linked Hyaluronic Acid,
3 Hyaluronic Acids

PM and UVB protector,
3 Hyaluronic Acids

RESULTS

Hydration is noticeable, while the skin texture appears bright and fresh, velvety to the touch.

Velvety, fresh-looking skin gently protected even in the urban contexts.

50ml

SEBUM REGULATION

IDEAL FOR

Mattifying and regulating the sebum production throughout the day. For oily, impure skin.

TREATMENT

SEBOCONTROL

Daily Sebum Absorber

A sorbet-like texture and the effectiveness of a balanced formulation specific for oily skin. The mix of humectants and oils allows obtaining an optimum hydration, while special texturing agents with modified starch mattify, performing at the same time a sebum-absorbing action.

SPECIFIC
FUNCTIONAL
INGREDIENTS

Pureness Blend

RESULTS

Pores are minimized; the skin is luminous, but not shiny. Better balance in the sebum production.

50ml

NIGHT TREATMENT

Renewing and rebalancing the skin tissue during nighttime. For combination-oily skin.

PURIDERMA 18

Regenerating Night Cream

It takes advantage of the night hours to allow the skin to renew itself, regenerate itself and find the right balance. Pureness Blend regulates the sebum production, while Glycolic and Mandelic Acids boost the cell turnover and improve the skin texture. An intense, targeted product.

Pureness Blend

Balanced, regenerated and functional skin with less visible pores and a greater luminosity.

100ml

PURIFICATION AND EXFOLIATION

Purifying the skin and gently exfoliating it. For combination/oily skin.

PURIMASK

Scrubbing Rebalancing Mask

White and blue Clays with occlusive and sebum-absorbent actions, natural exfoliating fibers obtained from Luffa and the dermo-purifying effectiveness of the Pureness Blend. It removes dead cells from the horny layer and accounts for an excellent weekly treatment to regain balance and freshness.

Pureness Blend

Skin regenerated and fresh-looking; decrease in the dimension and visibility of pores and restoration of skin balance.

15ml

ANTI-PIMPLE TREATMENT

Speeding up the healing for pimples. Acne-prone skin.

SEPTIGEL

Acne Control

Thanks to the special formulation perfected by the Ozonized Oil and Tea Tree Oil, it boosts the absorption of sebum and the rebalancing of the inflammatory state. It actively counteracts the presence of pimples and acne also thanks to special porous powders that suddenly dry out the blemish.

Pureness Blend

Fast healing for pimples.

15ml

LIFTING TREATMENT

IDEAL FOR

Evening out and smoothing the eye contour area. Optimum as make-up foundation.

TREATMENT

PREMIERE
Moisturizing Active Primer

It ensures a light coverage of the eye contour area and minimizes blemishes and discolorations. It contains a compound based on extracts of Siegesbeckia orientalis e Albizia julibrissin with properties that strengthen and improve the skin microcirculation with benefits in terms of reducing bags and dark circles and lifting effect.

SPECIFIC
FUNCTIONAL
INGREDIENTS

Compound of Siegesbeckia orientalis and Albizia julibrissin, Bio-available Peptide

RESULTS

The eye contour area becomes more even toned. The lifting effect is visible and noticeable.

15ml

TONING TREATMENT

Attenuating under-eye bags and dark circles, and giving a fresh-looking, rested appearance to the eyes.

HYALUGEN
Toning Eye Cream

Formulated to boost collagen production and give a fresh look to the eyes. It contains Procollagen performing a regenerating action, highly moisturizing Hyaluronic Acid and Pullulan and a Siegesbeckia orientalis and Albizia julibrissin extract-based compound boasting lifting, detoxifying properties which improve the skin microcirculation.

Compound of Siegesbeckia orientalis and Albizia julibrissin, Procollagen

Under-eye bags and dark circles tend to visibly lessen. The eyes acquire a vital look.

10ml

BAGS - DARK
CIRCLES TREATMENT

Treating the imperfections of the periorcular area, such as bags, dark circles and lines of expression.

PRIVILEGE
Advanced Serum Focus on Bags and Dark Circles

A synergistic molecular pool positively intervenes on cutaneous microcirculation and exerts a smoothing action, to progressively improve the condition of bags and dark circles. Immediately, the special texturizing soft-focus microspheres optically correct imperfections as expression lines, giving the periorcular area a relaxed and smooth appearance.

Synergistic molecular trio, Adenosine, Texturizing microspheres

Instant effect with immediate effect attenuation of the visibility of imperfections, and long-term results duration (less bags and dark circles) thanks to its continuous use.

* *Dermoscience Cryo Effect* technology offers a refreshing effect with benefits on microcirculation.

15ml

ANTIAGE TREATMENT

Counteracting wrinkles and fine lines of the eye contour area.

LIFTAGE

Antiage Revitalizing Treatment

It contains a compound of extracts of *Siegesbeckia orientalis* and *Albizia julibrissin* selected to prevent the onset of wrinkles, mitigate the existing ones and perform a lifting action (made also possible by the presence of the Adenosine in the formula). The extracts of Red Berries act on the skin microcirculation, minimizing bags and dark circles.

Compound of *Siegesbeckia orientalis* and *Albizia julibrissin*, Adenosine

Instantly smoother skin. Its continuous use improves the bio-functionality of the skin tissue of the eye contour area on the whole.

3 patches per box

EYE MASK

HYDROGEL PATCH D

Decongesting Eye Area Patch Bags And Puffiness

It acts thanks to the presence of Extracts of toning, firming *Green Algae*; moisturizing and elasticizing *Aloe Vera* and toning, tightening *Collagen*.*

RESULTS Under-eye bags and puffiness tend to progressively attenuate, while the whole eye contour area benefits from a pleasant “freshness effect”.

HYDROGEL PATCH L

Lifting Eye Area Patch Deep Wrinkles Anti-Age

The *Hyaluronic Acid* with three different molecular weights performs a moisturizing action; the Extract of *Horse Chestnut Seeds* boasts vasoprotective, draining properties, while the *Collagen* tones up and tightens the skin.*

RESULTS Skin immediately more tightened and fresh-looking. The combined use with the specific cream allows reducing both the length and depth of wrinkles.

HYDROGEL PATCH R

Revitalizing Eye Area Patch Micro-Wrinkles And Dark Circle

It acts thanks to the presence of the *Extract of Grape Leaves* rich in *Anthocyanosides* protecting the microcirculation (improving effect on under-eye bags and dark circles), of the *Extract of antioxidant*, protecting *Pomegranate* and of toning, tightening *Collagen*.*

RESULTS Dark circles tend to lessen. The continuous use of the product prevents and counteracts the onset of facial wrinkles.

03 OZOCEUTICA FACE

OXYGEN AS SOURCE OF LIFE

“Oxygen is essential to ensure life on earth. Our entire planet feeds on Air, so does our skin.”

OXYGENATION is the key word for a skin that regains its “breath” and harmony. Ozocutica Face rewrites the game rules both for a daily care and for a targeted treatment path – perhaps even due to a special rescue request by the skin tissue.

BEAUTY SPA natural resources

SESAZONE 6000

It is a special **special Sesame Oil bubbled with Ozone**. This ingredient – highly enhanced – can be defined as a “**warehouse of active oxygen**” which is stabilized and bio-available boasting several properties for the cells and skin.

It improves the cell energy and performs an overall **germicidal activity** (antibacterial and antimicrobial).

In addition, it effectively intervenes on skin tissues through a **revitalizing, re-epithelizing, cicatrizing action**.

It is essential for a new, rejuvenated skin which is ready to protect itself against **the environmental stressors**.

Ozoceutica Face is the very high-performance line that exploits the unequalled **Ozonized Oil Sesazone 6000**. The dynamizing, bio-stimulating, revitalizing power of this functional ingredient does not fear any comparison.

200ml | 50ml

50ml

SKIN CLEANSING

IDEAL FOR

Cleansing and purifying while respecting the skin hydro-lipidic film. For the whole family and all skin types.

TREATMENT

CLEANOZONE PLUS

All-over Ozonized Oil Active Cleanser

Micellar gel of gentle surfactants with Ozonized Oil incorporated. It gently cleanses the skin providing the beneficial effects ensured by the presence of the Ozone: purifying action, respect of the hydro-lipidic film, skin dynamization.

SPECIFIC FUNCTIONAL INGREDIENTS

Sesazone 6000,
Calendula Water (Marigold)

RESULTS

Purified, refreshed skin. The face immediately looks more oxygenated and vital.

REBALANCING OF SKIN MICROBIOTA

Rebalancing the skin microbiota and bio-dynamizing the skin. For all skin types.

VITABIOMA

Face Vitamin Cellular Activator SPF 15

A very pleasant texture which adapts to all skin types and all seasons. A dermatologically perfect formula: Sesazone 6000 provides an energetic refill, while Relipidium intervenes on the skin microbiota restoring its balance. Ideal to make the skin more vital than ever.

Sesazone 6000,
Relipidium

Regenerated, bio-dynamized and balanced skin. This results in an apparent improvement of the cosmetic and functional parameters.

RELIPIDIUM

The skin can be understood as an ecosystem, inhabited by bacteria, fungi, viruses and protozoa. These organisms make up the **skin microbiota**, whose fragile balance can be altered by **external stressors** (sun, air conditioning, temperature variations, etc.) or by **inflammatory processes**. The main bacteria of the skin microbiota are two: **Staphylococcus epidermidis**, which protects the skin tissue, maintains the homeostasis of the microbiota and boosts healing processes; and **Staphylococcus aureus**, the presence of which vouches for inflammation and damage to the skin barrier, with imbalance of the homeostasis.

Relipidium - obtained from bio-fermented wheat through the probiotic species *Lactobacillus plantarum* - **acts as an equalizer by stimulating lipid neosynthesis** (ceramides), intervening on the inflammatory processes due to *Staphylococcus aureus*, thus helping to **improve the barrier function of the skin and preserving the balance of the skin ecosystem** (microbiota).

15ml

BIO-DYNAMIZATION

Providing the skin with an energy burst; speeding up healing processes; optimizing the supply of the other functional ingredients.

SUPEROZONE 600
Hyperconcentrated Ozonized Oil

It helps the skin tissue in its physiological repair and regeneration processes, and it enhances the action of the other functional ingredients found in the formulations subsequently applied. The strong skin dynamization is ideal in periods of intense stress or when the skin appears especially sensitive.

Sesazone 6000

The skin appears vital, healthy and regains its efficiency and wellness.

50ml

REPAIR AND REGENERATION

Counteracting the environmental damage and helping the skin in its natural healing, regenerating process.

FIXIT
Enhanced Ozone S.O.S. Cream

An intensive emulsion which is essential when the skin launches its S.O.S.. It contains a significant portion of Sesazone 6000 with a repairing, regenerating action. 18-beta-glycyrrhetic Acid and α -Bisabolol complete the picture, performing a soothing, calming action, which is essential in periods of high stress.

Sesazone 6000

The skin recovers in short times and regains its balance.

04 — OZOCEUTICA NEOSKIN

SKIN REGENERATION

“In biology regeneration consists in replacing the damaged parts of the body with their identical copies. For the skin this means rebirth.”

REGENERATION is the key word in order to witness a rebirth process of face and beauty. Ozoceutica Neoskin drew inspiration from the notion of “new skin”: to remove the old one to make room for the new through the very valuable supply of Sesazone 6000.

BEAUTY SPA natural resources

ORGANIC ACIDS

This line is founded on the exfoliating, rejuvenating properties of a series of **Organic Acids** such as Glycolic Acid, Mandelic Acid, Lactic Acid, Lactobionic Acid, Azelaic Acid and many more for a specific, targeted treatment.

These substances – essential in the spa room – are perfected by the **Ozonized Oil Sesazone 6000**, which **dynamizes the skin** and makes it **receptive to the functional ingredients** found in the at home skin care and treatment **products**.

Ozoceutica Neoskin is not only a simple anti-aging line, but also a **high-technology** proposal for a rejuvenated, younger-looking face.

The **Organic Acids** as a tool to intervene on the main acial blemishes. Not only fine lines, wrinkles and skin aging, but also scars, dyschromias and loose skin.

150ml

SKIN CLEANSING

IDEAL FOR

Preparing to the treatments with Organic Acids. It is especially recommended in case of mature, thickened skin and impure skin.

TREATMENT

ACID CLEANSER
Face Cleanser pH 4.5

Thanks to the Mandelic Acid, it rearranges the horny layer and facilitates the penetration of the functional ingredients. At the same time, Sesazone 6000 (Ozonized Sesame Oil) dynamizes and energizes the skin, making it more reactive and vital. The special gentleness of the formulation allows it to be used daily even onto sensitive skin.

SPECIFIC
FUNCTIONAL
INGREDIENTS

Sesazone 6000,
Mandelic Acid

RESULTS

Cleansed, pleasantly nourished skin.

**BOTOXBLEND OF BEAUTY SPA:
BOTOX-LIKE ACTION**

Botoxblend - an **exclusive of Beauty Spa** - is a compound consisting of **3 functional ingredients** boasting smoothing and muscle relaxant properties, and a dynamizing functional ingredient, which work in synergy on wrinkles all over the face.

Acetyl Hexapeptide-8 simulates the action of the botulinum toxin, inhibiting the contractions of mimic muscles. A **tri-peptide derivative** antagonist of the acetylcholine muscle receptor smoothes expression lines, while **Pentapeptide-18** performs a strong myorelaxant action that enhances the effect of the other functional ingredients of the blend.

Finally, the essential element of the compound is **Sesazone 6000, Sesame Oil bubbled with Ozone**, which activates the skin tissue, making it more reactive than the actions guaranteed by the other three elements of the blend.

The final effect on the skin is visible and noticeable.

30ml

PLUMPING AND MYORELAXANT ACTION

Tackling the signs of aging and giving vitality to the skin tissue.

ABSOLUTE

Redensifying Multi-Active Serum

The biomimetic peptide of Waglerin 1 performs a smoothing, myorelaxant action. DMAE contributes to improving skin tone and firmness. Copper Peptides carry out a “controlled shock” which stimulates the skin to regain its optimal functionality. Anti-aging synergy.

Sesazone 6000

Plumped-up, smoothed skin. The appearance of wrinkles is significantly improved.

15ml

LIFTING AND SMOOTHING ACTION

Tackling fine lines, wrinkles and, generally, the signs of aging.

NOBOTOX

Botox-like Miorelaxing Serum

An immediate lifting effect, thanks to the Beauty Spa Botoxblend. Made up of 4 synergistic functional ingredients, this exclusive blend triggers a series of targeted mechanisms aimed at reducing and preventing the main signs of aging, including wrinkles and sagging of the face.

Sesazone 6000,
Botoxblend

Skin instantly smoother. The myorelaxant action is especially instrumental in treating facial wrinkles.

50ml

WRINKLE TREATMENT

IDEAL FOR

Helping the skin prevent the damage resulting from environmental stressors, among which photo-aging.

TREATMENT

BIO-SUPREME
Compensating Day Face Cream SPF 30

Against the signs of aging, Carnosine dipeptide performs an antioxidant action and helps repair the damage due to UV and Infrared exposure, also acting as a scavenger against RCS. Sesazone 6000 provides a surplus of energy which contributes to improving the skin bio-functionality.

SPECIFIC
FUNCTIONAL
INGREDIENTS

Sesazone 6000,
Carnosine

RESULTS

Wrinkles become less deep and large. Also the skin tissue luminosity finds benefits in the daily use of the product.

50ml

NIGHT TREATMENT

Ensuring the maintenance of the optimum skin bio-functionality even during the menopause and hormonal fluctuations.

CATHARSIS
Regenerating Night Face Emulsion

A special anti-aging treatment ideal for hormonal fluctuations. Genistein – which is recommended during menopause – boosts collagen production. The Hyaluronic Acid rebalances the moisture level giving compactness, while Vitamin E boasts an antioxidant action. With Sesazone 6000.

Sesazone 6000,
Genistein

In the morning the skin appears fresh-looking and vital. It looks regenerated with a well-groomed, healthy appearance.

50ml

30ml

NIGHT TREATMENT

Preparing the skin to the treatments with Organic Acids so that the peeling action turns out to be smooth and effective.

Correcting advanced blemishes or significantly regenerating the skin.

FENIX

Renewing Acid Night Face Cream

A precious night emulsion for a rebirth effect. It contains Mandelic and Lactobionic Acids and Gluconolactone, which are instrumental in exfoliating and regenerating the skin tissue and in improving the compactness and flexibility of the horny layer. This boosts the production of collagen, elastin and glycosaminoglycans.

Sesazone 6000,
Organic Acids

Smooth skin with a natural look. It becomes smoother and more vital over time.

EXTREME

Intensive Renewing Cream

It contains a high concentration of Organic Acids for a strongly regenerating and exfoliating action, which ensures a lifting, smoothing and anti-aging effect. Copper Peptides guarantee a revitalized “controlled shock”, while the Genistein boosts the collagen production. With Sesazone 6000.

Sesazone 6000,
Organic Acids

Over time its action allows minimizing those skin blemishes requiring its use.

05 GENESIS

REBIRTH EFFECT

“Returning to the origins of beauty – the youth - has been a myth for men ever since. However, nowadays preserving it is the only road to travel daily.”

HYDROXYPROLINE AND MARINE COLLAGEN

Genesis exploits two special functional ingredients which stimulate the skin to regain its tone and firmness, at the same time performing a smoothing action.

The **Hydroxyproline** boosts the interaction between fibroblasts and dermal matrix, and it stimulates the reshaping and contraction of collagen fibers, thus **helping the skin tissue keep elasticity and suppleness.**

This action is strengthened by the **Marine Collagen**, rich in some amino acids such as glycine, proline, lysine and hydroxylysine, which are essential in collagen synthesis. It is a **guaranteed rebirth** which incorporates a wonderful **youth effect** in itself.

REBIRTH is the key word for a skin that seems to rewind the tape of time. Genesis is a line dedicated to treating the aging signs and to regaining a beauty that makes vitality, freshness and luminosity its distinguishing features.

Tackling fine lines and wrinkles is just one of the aspects dealt with by this range of products: skin rejuvenation, restructuring and toning up are other essential elements which are instrumental in a real anti-aging treatment path.

30ml

SKIN ENERGIZATION

IDEAL FOR

A smoothing, stretching action and a precious anti-aging effect.

TREATMENT

BIG BANG
Anti-Age Energy Cocktail

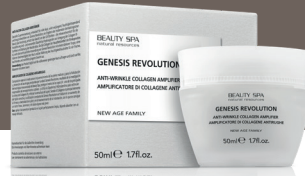

Like a sort of energetic “bomb”, it supplies the cells with the energy to trigger the biological mechanisms in charge of restructuring the skin tissue and restoring the normal physiological conditions typical of young, toned and supple skin.

SPECIFIC
FUNCTIONAL
INGREDIENTS

Hydroxyproline

RESULTS

The skin regains its suppleness, firmness and plumpness over time.

50ml

PLUMPING TREATMENT

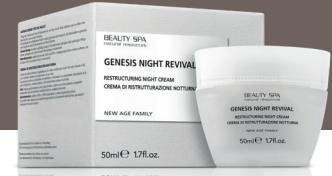

Boosting collagen production by the skin, thus minimizing wrinkles.

REVOLUTION
Anti-Wrinkle Collagen Amplifier

Thanks to a cutting-edge functional ingredient that amplifies the synthesis of type III Collagen – the most important of the various types of collagen – it helps reduce expression wrinkles and smooth the skin. Its special multilamellar structure ensures protection, hydration and nourishment throughout the day.

Marine Collagen

Tauter, smoother skin. Wrinkle length and depth are minimized.

50ml

NIGHT TREATMENT

Restructuring and stimulating the natural biochemical mechanisms of the skin.

NIGHT REVIVAL
Restructuring Night Cream

A product that stimulates the skin to regain strength to activate the anabolic and catabolic processes that determine the cosmetic, functional conditions of a young skin tissue. It optimizes the regenerative and night renewal process.

Peptide Complex

In the morning the skin appears hydrated, toned and glowing with a velvety touch and a smooth, taut appearance.

06 PERFECTAGE

THE BALANCE
OF PERFECTION

“The pursuit of perfection is a movement, a tension toward the ideal, which pushes to trigger every resource. Here more than anywhere else, intention is everything.”

PERFECTION is the key word for a skin rebirth project and for a face that glows with a new, conscious beauty.

BEAUTY SPA

natural resources

ANTI-SPOT ACTION

In dermatology it is known that the treatment of skin spots requires a synergy of interventions, all aimed at a single goal, but rather following different paths.

Beauty Spa has selected a special mix to tackle skin spots and discolorations at multiple levels: **Glabridin** with anti-tyrosine kinase action to inhibit the production of melanin, **Vitamin C** to stop the production of melanin upstream of the generative process, **Artemisia** to block the release of melanin to keratinocytes by melanosomes, **Angelica** to degrade the excessive melanin present in the spot and **Vitamin F** to eliminate excess melanin and promote cell turnover.

A real “crossfire” boasting a **super-intensive action**.

Rediscovering yourself to the fullest, at any age. With this goal, the **Perfectage** line was created: it focuses on the treatment of skin spots and discolorations (dyschromia), and aimed at enhancing beauty in every season. It is a challenge to time, gravity, the sun and natural laws.

100ml

100ml | 50ml

CLEANSING AND EXFOLIATION

SKIN TONIFYING

IDEAL FOR

Gently cleansing and enzymatically scrubbing the skin.

The prompt rebalancing of the facial skin and an immediate sensation of comfort.

TREATMENT

ENZIGEL
Spot Perfecting Enzymatic Gel with Zeolite and Papain

Enzymatic gel with amino acid surfactants which have a composition similar to the Natural Moisturizing Factor. It is formulated to ensure effective cleansing and enzymatic exfoliation that stimulates skin turnover, giving brightness to the face.

PERFECT LOTION
Biomimetic Intensive Treatment Lotion

Formulated to soothe and rebalance the skin, it uses biomimetic functional ingredients and highly skin-compatible oils, capable of restoring the hydro-lipidic film and counteracting dehydration. The selection of anti-spot functional ingredients modulates the production of melanin.

SPECIFIC FUNCTIONAL INGREDIENTS

Zeolite, Papain

Vitamins C and F, Phytosqualane

RESULTS

Perfectly clean skin and skin renewed, regenerated and “fresh.”

Decongested, hydrated and even-toned skin, with a beautiful radiance.

30ml

ANTI-SPOT AND ANTI-AGE ACTION

Counteracting skin spots and discolored patches, and minimizing the signs of aging.

EXCELLENCE

Multi Active Sensorial Day Serum

Illuminating serum with a biomimetic structure containing a rich blend of specific functional ingredients for counteracting skin spots (Vitamins C and F, and extracts of Mugwort and Angelica) and the treatment of the signs of aging (Adenosine and Vitamins E and PP).

Adenosine,
Vitamins C, F, E, PP

Daily use of the product guarantees uniformity, even tone and radiant vitality to the skin.

30ml

ANTI-SPOT NIGHT ACTION

Treating skin spots and preventing the onset of signs of aging overnight.

SERUM C NIGHT

Stimulating Revitalizing Night Serum

Liquid crystal biomimetic emulsion that combines stabilized Vitamin C and Mugwort extract for the night treatment of skin spots and discolorations. It intervenes on melanin by regulating it, and improves hydration by preventing the signs of aging.

Vitamin C, Mugwort,
Phytosqualane

In the morning the skin appears regenerated and fresh, skin spots tend to diminish over time.

50ml

DAY TREATMENT

IDEAL FOR

Counteracting skin spots and discolorations, assuring an immediate even skin tone.

TREATMENT

RADIANCE
Uniforming and Lightening Cream SPF 30

A rich, full-bodied formula for an emulsion boasting soothing, protective and evening-out properties. The special mix of functional ingredients is selected for a synergistic action against dark spots, while the microencapsulated pigments provide a radiant brightness.

SPECIFIC FUNCTIONAL INGREDIENTS

Avenanthramides, Adenosine, Mugwort, Angelica

RESULTS

The skin immediately appears brighter and more even-toned, while skin spots tend to become less noticeable over time.

50ml

NIGHT TIME TREATMENT

An anti-spot action at night, perfected by skin regeneration and a soothing effect.

REGENERIST
Regenerating and Soothing Night Emulsion

Its biomimetic multilayer structure improves barrier function and prevents dehydration. Lecithin also promotes the penetration of the anti-spot functional ingredients: Glabridin, Mugwort and Vitamin C. The soothing action is performed by Avenanthramides.

Glabridin, Mugwort, Avenanthramides

Upon awakening the skin is regenerated and fresh-looking, and it appears more even-toned and uniform over time.

50ml

NIGHT EXFOLIATING TREATMENT

Preparing the skin for depigmenting treatments or treating skin spots vigorously.

PHYTONIGHT

Phytic Acid Night Cream

Biomimetic emulsion boasting a melting texture, formulated to prepare the skin for treatments in the treatment room or for intensive at-home actions. 4% Phytic Acid performs an exfoliating and keratolytic action that favors the delivery of depigmenting functional ingredients.

Phytic Acid, Vitamin F, Angelica

The skin is ready for the treatments in the beauty parlor room, and skin spots tend to diminish over time.

200ml

MASK TO BE WORN

A soothing, softening action on sensitized skin showing skin dyschromia.

TOTAL REPAIRING MASK

Redness Reducing Compensating Face Mask

Wearable mask to be left on for the treatment of dehydrated and sensitized skin. It contains soothing, anti-reddening ingredients such as Avenanthramides and Organic Hemp Oil, and an anti-spot mix to regulate the production of melanin.

Avenanthramides, Vitamins F, C and E

The skin immediately appears “fresher” and desensitized, while skin spots and discolored patches tend to diminish over time.

07 PERFECTIONIST

SPEAKING OF PERFECTION

*“The pursuit of perfection as the touch of the artist.
From the care in color choice to the play of light,
art is made of sublime beauty.”*

CAMOUFLAGE is the key word for a skin that regains the radiance and evenness of a canvas yet to be fully painted. Beauty Spa helps the skin in this challenge by proposing a line that masterfully exploits the light, reflections and play of colors. But it does even more: it corrects and attenuate skin spots and the small-big blemishes of life.

BEAUTY SPA natural resources

WHITENING BLEND

It is an **exclusive compound of Beauty Spa** made up of three functional ingredients working in synergy for a powerful anti-spot, lightening action: **Resorcinol** and **Bisabolol**, **Porcelain Flower** and **Extract of Licorice**.

The target is to consider the blemish of skin dyschromias and to effectively treat it starting from three areas: the management of the excessive production of melanin, the treatment of skin inflammation at the root of hyperpigmentation and skin renewal which is instrumental in making the skin smoother, more even toned and glowing.

Results are visible already within a few weeks of the treatment.

Perfection as a *lifestyle*, as movement that tends toward beauty: **the best version of ourselves** is what we want the rest of the world to see.

50ml

50ml

DAY TREATMENT

NIGHT TREATMENT

IDEAL FOR

Minimizing spots and discolorations, protecting the face.

Minimizing spots and discolorations, helping the skin regenerate at night.

TREATMENT

PERFECT DAY
Staminal Active Wrinkle Eraser

The Whitening Blend acts on the spots, attenuating them and making them less visible, while Gardenia stem cells act on collagen on several levels. Notably, they restore the normal turnover, protect the matrix and reduce the synthesis of Matrix Metalloproteinase-1 – the main collagenase that attacks the collagen system and degrades the cellular matrix, thus generating wrinkles.

PERFECT NIGHT
Black Diamond Cellular Revitalizer

The light of the Black Diamond is the key prerequisite of this high-tech product which exploits the Whitening Blend together with a functional ingredient derived from beer yeast to deceive the circadian rhythms. This action allows us to recharge our cellular energy at night, stimulating both the breathing and glycolysis of keratinocytes with a beneficial effect that lasts throughout the day.

SPECIFIC FUNCTIONAL INGREDIENTS

Whitening Blend,
Gardenia Stem Cells

Whitening Blend,
Black Diamond

RESULTS

A smoother, more hydrated, velvety skin. Its wrinkles gradually lessen over time.

The skin appears regenerated, vital, radiant and fresh looking.

150ml

SKIN TONING

Toning and lightening the skin with spots and dyschromias.

BALANCE LOTION
No-Spot And Soothing Serum

Formulated for a targeted intervention on skin spots and dyschromias, it performs an anti-spot action and it contributes to improving the overall evenness of facial skin. Adenosine soothes and relieves, while Trehalose and Hyaluronic Acid combined together keep the skin hydrated, firm and toned up.

Whitening Blend,
Adenosine

Freshness, luminosity and a more even skin complexion are the results of using this lotion on cleansed skin.

30ml

PERFECTING ACTION

Evening out the skin and embellishing it with an appealing blur effect.

THE BLUR
Instant Flawless Skin

It contains innovative texturizers for an optimum skin feel with a filler effect; spherical, flat soft-focus, illuminating microparticles to optimize skin brightness; micro-pigments capable of perfecting the color and minimizing discolorations and spots. Photo retouching in cream, available in three nuances.

Next-generation texturizers

Evened-out, smooth, flawless, radiant skin.

08 SOURCE OF LIGHT

MAESTRI DI LUCE

“Light and shadow, highlighting and concealing. Taming the light means to enhance Harmony and to hide flaws. On the skin, this translates into luminous beauty.”

RADIANCE is the key word for a face that finds itself again flawless, homogeneous, marvellously even-toned. However, in order for light to be an ally, it is necessary to understand how best to use it. This is the expertise that Beauty Spa brings into play in its Source of Light line.

TEXTURIZING PARTICLES

The ultimate of the line is represented by **specific texturizing particles** capable of optically influencing the face skin.

In particular, thanks to specific **“plays of light”**, the skin appears smoothed and radically more even-toned as skin discolorations and fine lines are minimized.

The basic principle is that of **optical diffusion** or **“light scattering”**, whereby the product goes into wrinkles or on blemishes, making them less visible by scattering a **diffuse light** from the area.

Light offers great resources: if well used, it conceals wrinkles, minimizes blemishes, enhances an essential, charming point of the face.

50ml

DAY TREATMENT

50ml

NIGHT TREATMENT

IDEAL FOR

An immediate smoothing effect and an effective, long-lasting anti-aging action.

Stimulating the skin throughout the night and gently renewing it.

TREATMENT

PEARL C

Optical Day Face Cream

A daytime treatment with a feature: it acts immediately. It instantly improves the skin appearance thanks to its special texturizers, and it works over time, carrying out a complete restructuring of the skin tissue, including the dermal-epidermal junction (DEJ).

BIO CARE 12

Bio-Skin Fitness

The result of recent dermatological research studies, it stimulates the skin to regain its optimum bio-functionality at night. It also gently renews the skin thanks to the presence of Glycolic, Mandelic, Lactic and Lactobionic Acids.

SPECIFIC FUNCTIONAL INGREDIENTS

Ellagi-C

Biopeptides CL and EL

RESULTS

Wrinkles and blemishes appear less visible and tend to gradually lessen.

Regenerated, renewed, smoothed skin which is also pleasantly velvety.

SOURCE
OF LIGHT

50ml

50ml

EVENING-OUT TREATMENT

LIGHTENING, EVENING-OUT ACTION

IDEAL FOR

Immediately evening out the skin and treating it over time.

Giving radiance to the skin, evening it out and ensuring an “optimism” effect every morning.

TREATMENT

CC NUDE
Optical Day Cream SPF 20

CC Nude behaves like a sort of highly breathable “transparent make-up” to be worn every day before make-up or even as an alternative to it. These results are made precious by the presence of a functional ingredient capable of improving the cellular repair and regeneration, making the skin firmer and more vital.

OPTIMOIST
Optical Invisible Serum

Squared radiance and flawless, hydrated, protected and regenerated skin. Optimoist exploits the next-generation optical technologies and a pool of high-performance functional ingredients boasting revitalizing, evening-out, photoprotective and anti-aging properties.

SPECIFIC
FUNCTIONAL
INGREDIENTS

Biomimetic Peptide

Biomimetic Peptide

RESULTS

The skin immediately appears more evened out and homogeneous. Perfected, but with a natural look.

Instant beauty, radiant face, less fatigued appearance and smooth skin.

30ml

30ml

EVENING-OUT ACTION

Ensuring an optimum make-up foundation and prolonging the duration of Mymetic.

SMOOTHING FOUNDATION

Evening out the skin by giving “warmth” and beauty to the whole face.

MYMETIC PRIMER

Pre Make-up Smoothing Base

Evening-out, smoothing pre-makeup base. It employs the most up-to-date technologies, an exclusive formula and innovative ingredients to ensure the best performance and a long-lasting retention, so that the face is flawless throughout the day.

Pantrofina

Homogeneous, evened-out skin ready for the application of Mymetic.

MYMETIC

Anti-Spot Chromatic Foundation

The real evolution of the foundation. While making the skin pleasant and radiant from the first application, it performs a significant task of reducing wrinkles and skin blemishes, and of preventing photoexposure-induced damage. Ideal for daily use. Available in 6 nuances.

Extract of *Phyllanthus Emblica*

Evened-out skin with a natural look which gets smoother and more vital over time.

09 DELIDERM

MOMENTS OF TENDERNESS

*“Gentleness is a state of the soul.
It lies in words, in relationships,
in the approach to life.
And gentleness calls for tenderness.”*

TENDERNESS is the key word for a skin that daily rediscovers its original strength. Deliderm takes care of the sensitive, delicate skin by offering it a wide range of high skin tolerability products.

AGAINST INFLAMMATION

Inflammation is one of the key factors at the heart of the strong reactivity of sensitive skin.

Intervening on the inflammation in order to mitigate it means, therefore, **to rebalance the skin tissue**, thus improving skin response to the external stimuli such as couperose, telangiectasia, intense flushing and diffused redness.

It is a complex objective. In order to reach it Beauty Spa has selected a series of functional ingredients which work in synergy: **Extract of Maritime Pine, Boswellic Acid, Physavie**. In addition, **Extracts of Blueberry and Red Grapes, Calmosensine**.

Thanks to this special pool of functional substances, the skin tissue regains its strength and defense capability and can **glow again with beauty**.

In order to ensure the best results it deploys a series of functional ingredient boasting anti-inflammatory, rebalancing properties which help the skin tissue regain its strength, stability and beauty.

BEAUTY SPA

natural resources

30ml

50ml

50ml

SOOTHING TREATMENT

DAY TREATMENT

PROTECTIVE TREATMENT

IDEAL FOR

Sensitive skin showing diffuse redness, couperose and telangiectasias.

Sensitive skin showing capillary fragility and diffuse redness.

Daily protecting the face skin from UV radiation and reducing inflammation. Ideal after exfoliating, cosmetic-medical treatments.

TREATMENT

BIOSENSE

Strong Anti-Couperose Gel

Quick absorption Emulgel formulated to perform an immediate anti-inflammatory action, improve microcirculation and progressively reduce the presence of couperose and telangiectasias. It employs a pool of targeted functional ingredients. Their synergy ensures apparent results and a pleasant sensation of comfort.

DERMAFEEL

Desensitizing Anti-Reddening Cream

A technological emulsion containing a selection of functional ingredients aimed at acting synergistically on skin inflammation and capillary fragility. It brings the skin back to its normal condition, and helps it find the necessary resources to tackle daily environmental aggressions.

DD PROTECTION

Daily Defence Cream SPF 50+

Thanks to the special filter platform, it protects the skin from UV rays. It also incorporates next-generation functional ingredients that perform a wide-ranging desensitizing action, elasticize, nourish and counter photo-aging, making the skin more vital.

SPECIFIC FUNCTIONAL INGREDIENTS

Boswellic Acid,
Physavie

Calmosensine,
Venuceane

Extract of Maritime Pine,
Sun Filters

RESULTS

Redness tends to instantly lessen, while the skin regains a bright, smoothed, healthy appearance.

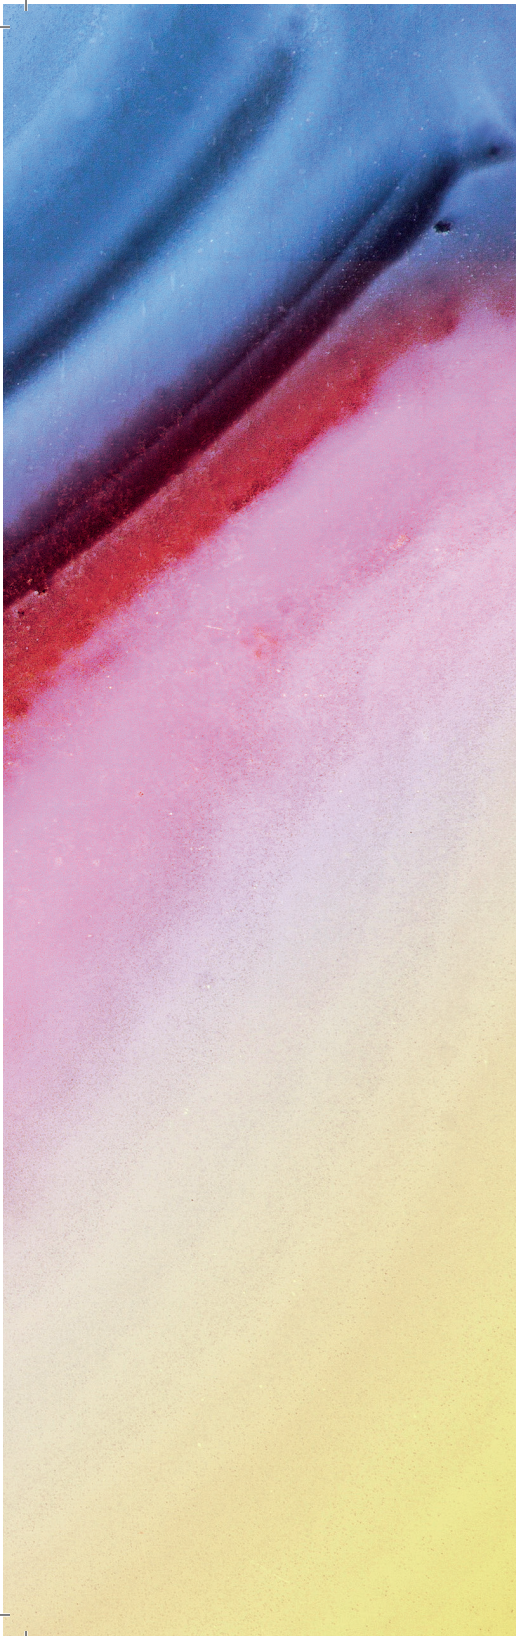

The skin gradually lightens; capillaries appear less evident and the reaction to environmental stressors becomes less intense.

The skin is perfectly protected against the sun and external agents, and it remains healthy and vital-looking.

BEAUTY SPA
natural resources

THE BODY

Body care not as a mere cosmetic question, but rather as an investment in one's own health.

With this philosophy in mind Beauty Spa deals with the main blemishes of the body. The goal is to restore **balance, wellness and, above all, harmony.** And this harmony translates into functionality, dynamism and beauty.

From spa room treatments to self-care paths, the body appears to be the undisputed protagonist of that balance that even the ancient peoples had acknowledged as **absolute value:**

Mens sana in corpore sano.

09 — OZOCEUTICA BODY

EXCHANGE BETWEEN
OXYGEN AND SKIN

*“Beauty feeds on oxygen.
Let our body breathe the balance.”*

ENERGIZING is the key word for a skin that finds again its energy and ability to get in shape again. Ozoceutica Body is a line dedicated to the body and its three main blemishes: cellulite, adiposity and stretch marks. The results of the treatments in the spa room and at home are guaranteed and enhanced by the fine Sesazone 6000, Sesame Oil bubbled with Ozone.

BEAUTY SPA natural resources

SESAZONE 6000

Sesazone 6000 is the brand new **Sesame Oil bubbled with Ozone** boasting a powerful dynamizing, bio-stimulating activity. Thanks to this special characteristic, it is able to act on the body by enhancing and optimizing the actions of the other functional ingredients of the line.

Notably, it enhances the following actions: **draining action**, which is instrumental in tackling cellulite; **reshaping action**, which is instrumental in treating localized adiposity and fat deposits; **renewing/elasticizing action**, essential for treating and preventing stretch marks.

This functional ingredient shows interesting properties stimulating the **absorption of the Lactic Acid** and regarding the recovery from fatigue. Benefits on the whole body are scientifically proven.

Sesazone 6000 boosts the exponential activation of the functional ingredients found in the treatment path and in the home treatment products. The result is a combination of draining, reshaping, elasticizing performance.

200ml | 50ml

150ml

150ml

SKIN CLEANSING

CELLULITE AND ADIPOSITY TREATMENT

STRETCH MARKS TREATMENT

IDEAL FOR

Cleansing and purifying while respecting the skin hydrolipid film. For the whole family and all skin types.

Treating the blemishes of cellulite and localized adiposity.

Preventing stretch marks in case of scheduled weight loss, hormonal fluctuations and puberty.

TREATMENT

CLEANOZONE PLUS

All-over Ozonized Oil Active Cleanser

Micellar gel of gentle surfactants with Ozonized Oil incorporated. It gently cleanses the skin supplying the beneficial effects guaranteed by the presence of Ozone: purifying action, respect of the hydrolipid layer, skin dynamization.

OZOFT

Revitalizing Dynamizing Body Spray

The dynamizing charge of the Ozonized Oil and the stimulating properties of a special anti-cellulite complex in an ultra-comfortable product. Formulated to treat cellulite and adiposity blemishes, it performs a lipolytic action and boosts the recovery of tone and suppleness.

OZOIL

Energy Recovery Elasticizing Body Oil

A blend of enzymatically activated fine oils to facilitate their penetration into the skin tissue and boost the bio-availability of the functional ingredients. It deeply nourishes the skin and strongly intervenes on skin elasticity, thus preventing stretch marks.

SPECIFIC FUNCTIONAL INGREDIENTS

Sesazone 6000,
Calendula Water

Sesazone 6000,
Extract of Caffeine

Sesazone 6000,
Oleosoft

RESULTS

Purified, refreshed skin. The face immediately appears more oxygenated and vital looking.

Over time there is an improvement in the skin texture and the visible effects of cellulite. When combined with a proper diet, it favors the redefinition of the silhouette.

The skin shows extraordinary elasticity and emollience that can be perceived by sight and touch.

200ml

STRETCH MARKS TREATMENT

Treating, by attenuating them, the existing stretch marks (both white and purple-red) and preventing the onset of new ones.

STRIASTINE

Stretch Mark Intensive Emulsion

The Ozonized Oil performs an energizing, biostimulating action, while the presence of essential Amino acids for the synthesis of collagen, Rice Bran Oil and Allantoin positively affects the skin moisture level and elasticity.

Sesazone 6000,
Oleosoft

Stretch marks tend to be less visible. The continuous use of the product also helps prevent the formation of new stretch marks.

150ml

SKIN RENEWING ACTION

Renewing and exfoliating the areas subject to stretch marks or sagging skin (inner arms and inner thighs).

RENOVA ACID SERUM

Stretch Mark Renewing Body Serum

Thanks to the Glycolic Acid, it boasts exfoliating, rejuvenating properties. It stimulates the production of collagen and elastin with benefits in terms of skin tonicity, elasticity and appearance. The emollient action is guaranteed by the enzymatically activated Olive, Flaxseed, Almond and Borage oils.

Glycolic Acid,
Oleosoft

The skin appears smoother, luminous and fresh looking. The overall skin tonicity is improved over time.

10 PERFECTAGE

ANTI-SPOT
BIOMIMETIC FUSION

“Our story lives in our body, and the skin is the page on which this one-of-a-kind, wonderful story unfolds.”

EVENED-OUT is the key word for a body that regains its skin at its best. The search for an evened-out skin even on the body is not a whim, but rather a need arisen from the awareness that **our skin deserves attention in its uniqueness.**

BODY ANTI-SPOT ACTION

Body skin spots often become less important, aided by the fact that the skin is often covered by clothes and that a blemish already so complex on the face seems to deserve less attention when confined to areas that are not always visible.

But today skin spots are no longer a blemish left unanswered. And the body as well deserves its attention.

Beauty Spa brings to the fore the best of cosmetic dermatology through Perfectage. It draws its inspiration from the **Japanese beauty routines** and the ingredients of **traditional Chinese medicine** to offer the skin a product boasting **the highest dermatological value.** It also uses the principles of biomimetic cosmetics to communicate with the skin and tackle the spot on the surface and in depth. The final effect is surprising.

For the body, **Perfectage** has selected the most powerful **anti-spot functional ingredients** focused on an in&out treatment (that is on and inside the skin) which ensures the promised results.

250ml

250ml

EXFOLIATION

PERFECTING TREATMENT

IDEAL FOR

An exfoliating body action complemented by anti-spot functional ingredients.

Treating body skin spots and giving a velvety touch to the skin.

TREATMENT

PHYTISCRUB
Exfoliating Chromoregulating Body Scrub

Paste cleansing scrub based on gentle surfactants. It exploits an effective mix for a combined physical (Salt and Zeolite) and chemical (Phytic Acid) exfoliation. It promotes cell turnover and helps modulate skin discolored patches.

CHROMABODY-C
Optical Perfecting Body Cream

Light, fresh emulsion formulated for the treatment of body skin spots and discolored patches. It contains a selection of functional ingredients aimed at regulating the production of melanin and promoting cell turnover without neglecting hydration and nourishment.

SPECIFIC FUNCTIONAL INGREDIENTS

Zeolite,
Phytic Acid

Vitamins F and C,
Phytic Acid

RESULTS

The skin of the body looses even toned, fresh and regenerated, ready to optimize the following care products.

The skin is hydrated and boasts a velvety touch. The anti-spot, evening-out action is evident over time.

10 ATLANTIS BIO- RESEARCH

ACTIVE MIX FOR THE BODY

*“There is a force in nature
that may become a resource
at the service of the
efficiency of our body.”*

LIPOLYTIC FUNCTIONAL INGREDIENTS

The Atlantis Bio-Research line exploits a synergy of several functional ingredients boasting properties which inhibit lipogenesis and stimulate lipolysis. In this way it **intervenes on adipocytes** – an essential, critical element for treating cellulite.

A key role is played by special **Peptides**, targeted complexes whose intervention leads to a decrease in the adipocyte volume and in the pressure on the circulatory system and by **Caffeine**.

The latter **stimulates the draining and removal of stagnant liquids** (anti-edematous function), and it boosts the mobilization of fatty acids in the adipose tissue. In addition, it promotes the intracellular phosphodiesterase, boosting the lipolysis. Nothing short of a miracle, but rather **apparent benefits**.

LIPOLYSIS is the key word for a skin that appears decongested, active, vital. Atlantis Bio-Research treats the more complex blemishes such as cellulite characterized and worsened by several factors. Treating it means to deploy a successful mix of products, methods and treatment paths.

The best selection of functional ingredients allows developing high performance formulations which effectively treat also the most complex blemishes.

BEAUTY SPA
natural resources

200ml

200ml

EXFOLIATION

RESHAPING TREATMENT

IDEAL FOR

Exfoliating and renewing the skin of the body directly in the shower.

Shaping the silhouette starting from localized adiposity.

TREATMENT

VOLCANIC MINERAL SCRUB
In-Shower Paste

A special paste to be gently massaged and then rinsed in the shower for an effective body scrub. It contains active ingredients capable of positively affecting microcirculation. They help minimize cellulite blemishes.

BE-SLIM
Modelling and Toning Body cream

Highly active emulsion for the treatment of localized fat deposits, which are typical of women. Its formula is rich in ingredients that specifically act on the adipocyte metabolism, promoting the removal of excess fluids and improving skin hydration and trophism.

SPECIFIC FUNCTIONAL INGREDIENTS

Extracts of Marine Algae,
Caffeine

Body-Fit,
Perfeline

RESULTS

Skin is perfectly cleansed and gently exfoliated. It is ready for the subsequent products.

The product redistributes the fat deposits to be used as energy in order to shape and remodel the whole silhouette.

200ml

200ml

200ml

SLIMMING

REMODELLING

ELASTICIZING

IDEAL FOR

Redefining the silhouette, even better if combined with a controlled diet.

Reshaping the whole silhouette, also optimizing the benefits of self-massage.

Moisturizing the body skin, supplying it with a burst of energy and luminosity.

TREATMENT

ALGAE

Draining and Anti-Cellulitis Emulsion

Emulsion very rich in natural functional ingredients with lipogenesis inhibiting action. A Tripeptide – combined with xanthine base Theobromine and Caffeine – activates the process of breaking down fats accumulated in the fat cells and their consequent elimination.

BODY-D

Hypodermic Remodelling Cream

Special emulsion formulated with the aim of ensuring an effective, prolonged massage of the areas affected by cellulite and localized adiposity in order to reshape the silhouette. The Body-Fit found in the formula reduces water retention and increases tonicity.

AMAZONAS

O₂ Active Body Oil

The emollient, elasticizing, moisturizing and firming action of this product is carried out by a series of functional ingredients that work in synergy: Sweet Almond Oil, Argan Oil and the Amazonian Babassu Butter, selected to restore the lacking skin lipid layer. The Ozonized Oil increases cellular energy.

SPECIFIC FUNCTIONAL INGREDIENTS

Lipolytic Peptides, Extracts of Algae and Centella

Body-Fit, Liporeductyl

Ozonized Oil, Sweet Almond Oil, Argan Oil

RESULTS

The intervention of Algae in the complex lipogenesis mechanism contributes to reducing the adipocyte volume and decreasing the pressure on the circulatory system.

Combined with an effective self-massage, the product helps reshape the treated areas with benefits for the whole silhouette.

The skin seems to regain “breath” and freshness, and it glows with a new radiance.

150ml

200ml

DRAINING ACTION

Improving microcirculation and performing a draining action, perfect for treating cellulite.

Performing a draining action. If combined with exercise, it optimizes its results.

FLEBOTON

Anti-Oedema Phlebotonic Regenerant

Fleboton is formulated to boost the restoration of the functional integrity of the microcirculation and activate a tissue detoxifying, purifying function. To this end, it exploits Redulite to facilitate the elimination of excess fluid accumulation by promoting drainage.

SLIMMING SPRAY

Draining and Firming Action

It contains a blend of functional ingredients selected for their special synergy. It can be used both during exercise and at rest. Perfect under the pantyhose or the girdle, it helps firm the skin tissue and reduce cellulite blemishes without a massage.

Redulite,
Escin

Glaucine,
Caffeine

A sensation of lightness and wellness for the treated areas. The skin is visibly more toned and regenerated.

The treated areas appear fresh and decongested, and they are characterized by a pleasant sensation of lightness.

11 SILHOUETTE MODELLING

THE SHAPE
OF BEAUTY

*“I look at the profile of your body and
I believe I could recognize it among
a crowd, even in a hundred years.
Your shape is your essence.”*

RESHAPING is the key word for a body that transmits energy, lightness and positivity. Enhancing one’s own body, helping it in the daily task of tackling aging and bad habits is made possible by the precious Silhouette Modelling family dedicated to the balance recovery.

BEAUTY SPA natural resources

BEAUTY BODY FOOD

With this philosophy in mind Beauty Spa proposes a range of **products formulated to reshape the body**, favor slimming and ensure a detoxifying action.

The universe from which the key functional ingredients of the line are obtained concerns the food world and encompasses the Amazon forest as well as our local fields. Its textures are undoubtedly captivating: **scrubs, foams, waxes and fluids**.

An accurate selection of products capable of offering an unexceptionable response.

RESVERATROL

Polyphenol of the Stilbenoids class, **Resveratrol is found in Grapes** and, in considerable amounts, **in Wine**. It is a molecule that is the subject of several research studies which vouch for its antioxidant properties, stimulating the cellular life and anti-wrinkle properties.

Its antioxidant action is twofold: it acts both as a chelator of iron and copper ions (it prevents the formation of ROS), and as a **"radical scavenger"** (it blocks the action of ROS).

Resveratrol also boasts **soothing, anti-inflammatory, smoothing properties improving** the peripheral circulation (microcirculation). It also gives plumpness and luminosity to the skin, which appears younger, by stimulating cell proliferation and the synthesis of collagen and inhibiting the enzymes involved in the collagen degradation.

The *perfect shape*, the harmony of the silhouette, the pursuit of the best version of oneself: the body expresses our habits and our lifestyle, our passions and our inner world.

SILHOUETTE MODELLING

500ml

EXFOLIATION

IDEAL FOR

Gently exfoliating and renewing the skin of the body.

TREATMENT

FRUIT BLEND *Active Slimming Body Scrub*

Scrubbing particles such as Pumice and Almond microgranules and functional substances boasting a lipolytic action stimulating the adipocyte metabolism turn the ritual of exfoliation into a real treatment with a stimulating, remodelling value.

SPECIFIC FUNCTIONAL INGREDIENTS

Microgranules of Pumice and Almond,
Botanical Slimming Complex

RESULTS

The skin appears fresh, decongested and vital. The skin tissue is ready to receive the benefits of the subsequent products.

200ml

CLEANSING

Daily cleansing the skin of the body. For the whole family. For all skin types.

VANILLA FOAM *Total Body Cleanser*

It uses gentle natural surfactants which respect the hydro-lipid film and delicate balances of the skin in combination with the botanical extract of Ginkgo Biloba boasting antioxidant properties and providing a beneficial action on microcirculation.

Natural Surfactants,
Extract of Ginkgo Biloba

The skin appears fresh, rejuvenated and gently hydrated even in the shower.

200ml

300ml

MOISTURIZING TREATMENT

Gently nourishing and moisturizing the body skin. For all skin types.

Moisturizing the skin and offering an enhanced supporting structure to Beauty Spa boosters.

MILK & FRUIT
Moisturizing and Silkening Cream

A gentle hydration, the pleasure of a texture that caresses the skin and a cascade of functional ingredients with emollient, velvety and silky properties. Immediately after cleansing, it takes care of the body skin helping it find its optimum hydro-lipid balance.

Hydrolyzed Vegetable Proteins,
Trehalose

The skin acquires a very fresh, ultra-velvety touch, and it appears perfectly hydrated and treated.

AQUAGELÉE
Body Intensive Moisturizing Emulsion

Fresh and ultra-moisturizing thanks to its imperceptible texture, it is suitable for all skin types, even male. It can be used alone, for an immediate silk-like, softening action, or combined with a Beauty Spa booster for a synergistic action, of which enhances the properties (draining, lipolytic, etc.).

Shea Butter, Sunflower Oil,
Vitamin E

A perfectly moisturized and velvety skin. Mixed with the Beauty Spa boosters, it guarantees performance enhancement, in addition to an optimal sensoriality.

SILHOUETTE MODELLING

200ml

RENEWING TREATMENT

IDEAL FOR

Renewing the skin of the whole body and improving its tonicity and smoothness.

TREATMENT

RENEWER *Renewing and Regenerating Cream*

It allows for daily skin renewal thanks to the presence of Organic Acids. It supplies the body skin with softness and nourishment, making it toned, smooth and elastic. It favors the restructuring of the skin texture, improving its appearance.

SPECIFIC FUNCTIONAL INGREDIENTS

Glycolic, Malic and Tartaric Acids,
Shea Butter

RESULTS

Day after day the skin is gently renewed, and it shows an optimum vitality and a glowing, fresh appearance.

200ml

FIRMING TREATMENT

Tackling the blemishes connected to the loss of elasticity and firmness of the skin tissue.

RAXODASE *Deep Body Toner*

An emulsion with a silky texture containing a pool of toning (Ceramide-3), firming (Dipalmitoyl Hydroxyproline) and strongly moisturizing (Rice Bran Oil) functional ingredients. Its firming action improves the overall appearance of the silhouette.

Ceramide-3,
Dipalmitoyl Hydroxyproline

The immediate benefits concern the skin tissue which appears more toned and firmer. Over time these benefits result in an improvement of the harmony of the whole body.

100ml

LIPOLYTIC TREATMENT

Perform a strong lipolytic action, re-define the areas of the body affected by localized cellulite and adiposity.

LIPOLIFT

Stimulating Lipolytic Body Booster

A formula rich in functional ingredients with reducing and stimulating properties, to restructure the fabric skin and reshape the body. The Methyl Nicotinate triggers a hot-cold thermal shock, capable of reactivating the microcirculation and increase mobilization of fatty acids, with effect of metabolic release.

Bakuchiol, Methyl Nicotinate, Carnitine, Caffeine

The strong lipolytic action allows a general remodeling of the silhouette, with benefits also in terms of improvement of the cellulite condition.

100ml

DRAINING TREATMENT

A detoxifying and draining action that contrasts the stagnation of fluids and edematous cellulite, with "lightness effect".

DRENABOOSTER

Draining and Remodelling Body Serum

A synergy with a draining, re-shaping action, guaranteed by a mixture of well-balanced functional ingredients. The extract of Sambucus Nigra stimulates microcirculation, while Escin promotes the mobilization and removal of stagnant fluids.

Sambucus Nigra Extract, Escin, Menthyl Lactate

The intensive draining action ensures a feeling of "lightening", while the Menthyl Lactate gives freshness and vitality.

200ml

DRAINING AND REFRESHING TREATMENT

A draining and refreshing action that gives relief and comfort to the fatigued legs.

FREEZE GEL

Extended Release Cold Legs Gel

Cold gel boasting relaxing and refreshing properties. The formula guarantees a gradual and long-lasting transfer of the freshness effect. Thanks to the draining action stimulated by massage, it is the ideal treatment in the summertime and whenever the legs appear swollen and heavy (even in pregnancy).

Menthol, Menthyl Lactate

A feeling of lightness and comfort, for fresh hydrated and pleasantly velvety legs.

WINE
ELIXIR

250ml

250ml

250ml

CLEANSING

EXFOLIATION

NOURISHING TREATMENT

IDEAL FOR

Cleansing the skin of the body fulling preserving its hydrolipidic film.

Exfoliating the body skin and preparing it for the subsequent treatment products. For all skin types.

Intensely nourishing the body skin, making it soft and velvety. For all skin types.

TREATMENT

GRAPE ELIXIR

Total Body Regenerating Shower Gel

A cleansing product that respects skin and its balance thanks to surfactants of vegetable origin and to the regenerating action of vitamins and Leaves of Red Grapes polyphenols. Also ideal for a frequent use, it has a pleasant grape perfume.

SUGAR SCRUB

Sugar Scrub With Tartaric Acid

A beneficial natural peeling with an antioxidant action enhanced by the physical action of Sugar and by the softening action of Alpha-hydroxy acids, among which the Tartaric Acid is the main one. It renews the horny layer, increases the moisture level by making the underlying “younger and fresher” cells reach the surface, and prepares the skin to receive the Grape functional ingredients.

GRAPE BUTTER

Nourishing and Velvety Body Butter

Rich in organic functional ingredients boasting a moisturizing, emollient and velvety action - including Grape Butter - this “light butter” is a real hyper-nourishing and ultra-silky bomb, which gives the skin a very pleasant compact effect and absolute brightness.

SPECIFIC FUNCTIONAL INGREDIENTS

Surfactants of vegetable origin, Leaves of Red Grapes

Malic and Tartaric Acids, Sugar in granules

Grape Butter, Grape Seed Oil

RESULTS

Skin is cleansed and appears velvety, smooth, and pleasantly perfumed.

Exfoliated, regenerated skin with a velvety, hydrated touch.

Perfectly nourished, velvety, hydrated skin which is very soft to the touch.

12 BEAUTY SERVICE

THE CARE OF DETAILS

*“Details make perfection
and perfection is not a detail.”*

ATTENTION is the key word, to be perfect and trim, from head to toe. Beauty Spa has also dedicated a special line to the feet, with high-performance formulations, tasty and pleasant to use.

Our body and face care cannot ignore the attention to details, such as a velvety hand, bright lips or feet ready for the most beautiful jewel sandals.

TUA MASK

YOUR BEST FRIENDS

“A cup of steaming tea, a book that gets you hooked and the pleasure of a mask on the face. What else for a wellness break?”

The moment of the mask represents the break par excellence, the moment when we devote time to ourselves, the opportunity to give regeneration and relax to our skin.

25ml

EXFOLIATION

ESSENTIAL GOMMAGE

SOS Fruit Gommage

Selected microgranules with different granule size to renew the face skin, giving it radiance and beauty. It contains a balanced mix of Pumice granules, Almond kernel and Lemon peel with “scrubbing”, renewing properties. The Orange extract provides a burst of energy.

IDEAL FOR Scrubbing and renewing the skin tissue, preparing it to receive the benefits of the subsequent masks.

SPECIFIC FUNCTIONAL INGREDIENTS

Microgranules of Pumice and Almond Kernel, Scrubbing Substances from Lemon

RESULTS The skin appears fresh and vital, renewed and pleasantly scented. Ready to optimize the benefits of the subsequent treatment products.

25ml

LAYING MASK

HYDRA

SOS Moist Mask

Leave-on mask to help skin regain its correct moisture level and appear again radiant and fresh. It contains Aquablend and natural Pullulan in combination with botanical extracts of White Peony and Gallic and Damask Rose. The massage performed at the end of the laying time reactivates skin microcirculation.

IDEAL FOR Supplying dry, dehydrated skin with a surplus of hydration. Perfect for the most stressful periods for the skin.

SPECIFIC FUNCTIONAL INGREDIENTS
Aquablend, Pullulan

RESULTS The skin hydration improves together with skin appearance, which becomes radiant and fresh-looking.

25ml

LAYING MASK

PURE

SOS Purifying Mask

A mask as soft as a cloud formulated to purify the skin and rebalance its sebaceous production. It contains a combination of Rosehip extract which is instrumental in regulating the sebum level and avoiding blemishes stemming from being too shiny. It also contains Burdock extract boasting a dermo-purifying action and exfoliating, softening Willow extract.

IDEAL FOR Specific for impure, oily skin. Thanks to its dermo-purifying action it is a perfect appointment also for normal/combination skin.

SPECIFIC FUNCTIONAL INGREDIENTS

Extract of Rosehip,
Extract of Burdock

RESULTS The skin appears luminous, but not shiny, soft to the touch with less visible pores.

TIMELESS

SOS Timeless Mask

Anti-aging mask boasting a pool of high-synergy functional ingredients. Carnosine stimulates collagen synthesis and counteracts the action of free radicals. Vegetable Ceramides improve skin suppleness and firmness. The nourishing, supple supply is ensured by Shea Butter which, combined with Vitamin E, gives emollience and elasticity to the skin.

IDEAL FOR Counteracting the signs of aging – wrinkles and dull complexion – and giving an energy burst to the face.

SPECIFIC FUNCTIONAL INGREDIENTS

Vegetable Ceramides,
Carnosine

RESULTS A radiant, glowing skin ready for a special night or an important occasion.

RECOVERY is the key word for a skin that cannot give up its weekly appointment with beauty.

Beauty Spa has enhanced this sublime break with four emotional masks which combine the charm of one-of-a-kind textures with a specific functional value.

HAND DREAM

DREAM HANDS

“If you do not know what to do with your hands, turn them into caresses.”

Hands deal with the outside every day. At work, at home, on the road, they are the very first ones to be exposed to the aggressions by cold, chemicals and environmental stressors.

NOURISHING is the key word, as hands need a very special aid.

Treating this part of our body, which is as delicate as beautiful, is essential. It must be not only daily, but repeated if need be, especially in the most critical periods.

100ml

TREATMENT

VIOLET CREAM

Restoring and Moisturizing Hand Cream

Thanks to its light texture, it can be used in every season. But it turns out to be essential in the most stressful periods (cold, sun, wind): it gives emollience and hydration, counteracting chaps and dryness, thus maintaining the skin fresh and vital.

IDEAL FOR Nourishing the skin, preventing dryness and chaps and protecting the skin against environmental aggressions.

SPECIFIC FUNCTIONAL INGREDIENTS

Extract of Tricolor Pansy,
Shea Butter

RESULTS Hands are hydrated, soft, velvety and protected against environmental aggressions.

50ml

EXFOLIATION

BUTTER SCRUB

Sugar Crystal Hand Scrub

In order to have soft, velvety hands, a scrub gently renewing the skin should be performed every week. This boasts a natural touch, it is enhanced by Sugar Crystals, and it exploits softening, velvety functional ingredients.

IDEAL FOR Gently exfoliating hands skin and preparing it to receive the nourishing functional ingredients of Violet Cream.

SPECIFIC FUNCTIONAL INGREDIENTS

Extract of Tricolor Pansy,
Argan Oil,
Sweet Almond Oil

RESULTS Glowing, smoothed hands with a velvety, fresh touch.

100ml

100ml

FEET TREATMENT

CALLUSTOP

Keratolytic Anti-Calluses Intense Cream

Especially rich, full-bodied emulsion formulated to take care of feet affected by dryness, calluses and chaps. The high content of Urea allows moisturizing the skin, but also performing a keratolytic action enhanced by the presence of the Salicylic Acid.

IDEAL FOR Improving the conditions of feet with chaps, calluses and overall dryness.

SPECIFIC FUNCTIONAL INGREDIENTS
Urea,
Salicylic Acid

RESULTS Chaps tend to lessen and the skin becomes softer and velvety to the touch.

MOIST&PURE

Purifying Moisturising Feet Cream

A selection of purifying functional ingredients, special gradual release water polar oils and an absorbent texturizer to speed up the product absorption.

With its light texture, it ensures fresh, hydrated, scented, beautiful feet.

IDEAL FOR Moisturizing the feet, maintaining a light, fresh skin-feel. It prevents chaps.

SPECIFIC FUNCTIONAL INGREDIENTS
Nem Oil,
Extracts of Organic Sage,
Mint, Thyme

RESULTS Feet appear fresh and hydrated. Daily application of the product prevents chaps and calluses and maintains the skin soft and elastic.

FEET DREAM

WITH WINGS ON FOOT

“Every long journey begins with a first step.”

Our feet are the ones that accompany us every day, literally taking us to our destination.

PURIFYING is the key word, as it is the first step for fresh, hydrated feet we should love. Far from our eyes, they risk being forgotten and, therefore, neglected.

A great mistake as our feet are the unequivocal symbol of beauty and charm and speak volumes about the person who takes care of them.

KISS ME

PLUMP LIPS

*“A kiss, after all,
what is a kiss?
A pink apostrophe between
the words I love you.”*

Lips are often exposed to environmental aggressions and are among the first facial areas to be affected by the signs of aging.

VOLUMIZING is the key word as three-dimensional lips are an incomparable sign of beauty. Only a daily, targeted, even pleasant treatment can keep them young and soft.

10ml

10ml

PLUMPING

LIFTING

MYLIPS

Replumping and Nourishing Lip Balm

It takes care of lips thanks to the nourishing effect of Shea Butter and to the highly-moisturizing and filler properties of Hyaluronic Acid. The formulation is rounded off by Vitamin E, which is ideal in preventing the signs of ageing.

IDEAL FOR plumping lips, making them very soft and velvety.

SPECIFIC FUNCTIONAL INGREDIENTS

Shea Butter,
Hyaluronic Acid, Vitamin E

RESULTS Tight, plumped up and pleasantly bright lips. It prevents the dehydration.

HYALULIFT 3D

Soothing and Moisturizing Lip Area

Concentrate of three Hyaluronic Acids, formulated to treat fine lines of the lip contour area and give the skin a smooth, homogeneous look. It provides a deep moisturizing action, and, thanks to the presence of botox-like functional ingredients, smoothes out the skin by giving it suppleness, plumpness and firmness, therefore a younger appearance.

IDEAL FOR Preventing and minimizing the lip contour fine lines.

SPECIFIC FUNCTIONAL INGREDIENTS

3 different molecular weight
Hyaluronic Acids,
Gatuline Expression

RESULTS The tensor effect is immediate and noticeable, while the benefits in terms of wrinkle reduction become more apparent over time.
