**Dear alessandro fans & friends,**

A joint vision has been making the alessandro family unique for 30 years. Under the logo of peacock feathers, we combine first-class quality, continuous innovation and international style.

By developing professional formulations, patented 'created in Germany' products and customised services, alessandro is the no. 1 partner for nail professionals. Fashion fans love the creative and passionate use of the latest fashion and beauty trends for the nails.

In personal consultation with each individual member of the alessandro community, the heart of our brand can be felt every day since its founding in 1989.

Just in time for our 30th anniversary, products will now have a modernised logo. The new peacock represents alessandro's unparalleled success story as well as belief in the power of the new, which ensures continuous further development.

We look forward to continuing to share this vision with our customers!

Your alessandro Team

## BONDING AGENT

alessandro bonding agents form the basis for uncompromising and strong bonding of all alessandro sculpting gels. The alessandro bonding agents are all-round products that can be applied underneath any UV/LED sculpting gel.

#### **BOND STRONG BONDING AGENT**

Bond Strong forms the basis for uncompromising and strong bonding of all alessandro sculpting gels. The slightly acidic bonding agent offers the best bonding even with problem nails and difficulties with adhesion.

01-941 5ml

#### **BOND SENSITIVE BONDING AGENT**

Bond Sensitive forms the basis for uncompromising and strong bonding for sensitive customers or damaged nail plates. Enhanced with keratin, biotin and caffeine, Bond Sensitive provides a smooth, strong basis for all alessandro sculpting gels.

01-961 5ml

#### **PEDI BASE COAT**

Pedi Base Coat offers the perfect acid free basis for any light-curing colour pedicure. It forms the best primer coat with strong adhesion, smoothing uneven nail surfaces and protecting sensitive nail plates against discolouration.

Pedi Base Coat cures under UV/LED light and is only suitable for toenail application.

01-038 10ml

#### **PREP & PRIME**

Prep&Prime is more than a classic dehydrator. The acid-free ingredients remove oil, dehydrate and prime the natural nail, whilst perfectly preparing the nail surface for the following products. The dehydrator air-dries, so no curing is required. The bonding booster strengthens the adhesion of light-curing base coats and bonding agents many times over and can be applied underneath PROLAQ, Lac Sensation, Bond Strong/Sensitive (not suitable underneath Striplac or nail polish).

01-485 10ml

## SCULPTING GEL

alessandro UV/LED gels offer the best formula for all customer wishes and any nail type. Depending on your requirements in perfect sculpted nail material, you can choose between the two consistencies - honey-like (self-smoothing) and jelly-like (can be sculpted).

The gel range is completed with camouflage, French and sealing gels.

# alessandro SCULPTING GELS

## FX-ONE

alessandro FX-One Hard Gel is the perfect acid-free all-round gel with reduced heat response for quick refills, nail sculpting and natural nail strengthening. It is suitable for any nail type and any working technique, and cures under all UV/LED lamps. The honey-like, self-smoothing consistency makes it very easy to use with no complex sculpting required, guaranteeing minimal reworking of the surface if applied correctly.

## SOFT CODE

The modern acid-free soft code gel system meets all of the requirements in professional nail sculpting and natural nail strengthening. The jelly-like gels have a stable consistency and slowly self-smooth on the surface. They can be sculpted with a brush and a gel stick and are suitable for all nail types and application techniques.

The variety of consistencies and degrees of curing that result from the curing process ensures that all nail types can be handled perfectly.

## SPEED GEL

The innovative speed gel is impressive with its quick application and easy working. The honey-like gel smooths by itself, but doesn't spill over the edge of the nail, and doesn't have to be filed at all. Together with White Pearl's low heat feature (1x 99 sec.), only a small amount of heat is generated. A complete refill is possible in just 30 minutes. The acid-free gel has the perfect shine after curing, without even having to seal it.

## STRENGTHENING THE NATURAL NAIL

alessandro natural nail strengthening gels mainly ensure that thin, brittle fingernails that are quick to tear become more stable nails.

**Fibre gels** are fibre-enhanced, honey-like brush-on gels for fast refills, strengthening natural nails or creating new sculpted nails. The high level of stability makes the nail resistant and extremely resilient. (Only suitable for short extensions!)

**PROLAQ Soak Off Builder Gel** is a removable, very smooth gel for nail strengthening and extension up to 4mm. It is particularly gentle for natural nails as it can be removed in 15 - 20 minutes with the soak-off liquid.

**FIBRE BASE HAFTGEL**

Acid-free bonding agent for Fibre Brush-On gel that cures under UV/LED light.

01-624 10ml

**FIBRE TOP GLANZGEL**

UV/LED-curing high gloss gel in a practical bottle with brush for sealing fibre brush-on fibreglass gel or classic gel sculpting.

01-625 10ml

**FIBRE FIBERGLAS GEL**

Clear, acid-free brush-on UV/LED fibreglass gel for thin reinforcement of the nail, refills and short sculpting where the arch does not need to be built up a lot (C-curve).

01-567 10ml  
01-568 30ml

**FIBRE MILKY**

24-314 8ml

## POLYACRYLIC GEL

**AcryLOVE** polyacrylic gel combines the best qualities of acrylic and gel in a single product. In terms of technique, it is exactly like acrylic – without the labour-intensive mixing. It is completely odourless and provides an unlimited application time until cured by UV/LED without running off the edges of the nails. After curing, AcryLOVE is ultra-light on the nails, but still harder than classic gel and more flexible than traditional acrylic.

# STEP BY STEP

# 1.

## PREP AND PRIME

Prepare the natural nails as usual, by removing the cuticle and matting and removing oil from the nail plate. Apply a thin layer of bonding agent and cure briefly under UV/LED.

# 2.

## NAIL SCULPTING

Sculpt the nail structure into the desired shape and length with the polyacrylic gel on the natural nail, sculpting form or tip and cure under UV/LED light.

# 3.

## SEALING

For a high shine finish, seal the sculpted nail with one of the alessandro Ultimate Shine gels and cure under UV/LED light.

**ACRYLOVE POLYACRYLIC GEL, CLEAR**

Transparent pink polyacrylic gel that enhances the natural colour of the nail bed and guarantees a natural, crystal-clear finish.

01-848 15g  
01-882 50g

**ACRYLOVE POLYACRYLIC GEL, CLEAR WHITE**

Semi-concealing, transparent white polyacrylic gel. The porcelain-white shade gently conceals the nail plate and is the perfect way to extend for very natural-looking nail sculpting.

## ACRYL POWDER LIQUID SYSTEM

You don't need a UV lamp for these acrylic nails. The sculpting compound made from the liquid and the powder can be simply shaped into a soft ball on a surface.

Next, it can be shaped on the nail using a sculpting form technique.

It air dries in seconds and can be immediately filed to the desired shape. You can achieve perfect nails of any desired length.

## STEP BY STEP

1.

### PREP AND PRIME

Prepare the natural nails as usual, by removing the cuticle and matting and removing oil from the nail plate with Liquid Prep. Apply a thin layer of Acrylic Liquid Bond.

2.

### NAIL SCULPTING

Sculpt the nail structure into the desired shape and length with the powder and liquid on the natural nail, sculpting form or tip.

3.

### SEALING

For a high shine finish, polish the nail or seal the sculpted nail with one of the alessandro Ultimate Shine gels.

 You can find brushes on p. 74

**ACRYLIC LIQUID BOND**

The acid-free primer is a bonding agent that air-dries and guarantees the greatest possible adhesion to the natural nail for the acrylic powder & liquid system.

## COLOUR GEL

alessandro also offers the right product for every customer wish in the world of colour. Our traditional colour gels in jars are easy to paint on thanks to their creamy consistency. There are many highly pigmented colours available.

### UV/LED COLOUR GEL

The well-proven alessandro colour gel system with 99 colours offers many benefits, like perfect, streak-free coverage and a particularly creamy texture. The colour gel reliably cures under UV and LED devices.

### UV/LED GLITTER GEL

A bit of glitter never hurt anyone!

You'll be guaranteed to make the nails eye-catching with sparkly glitter colour gels.

### LED COLOUR GEL 2.0

The latest generation of colour gels impresses with brilliant colours and intensive coverage even in the first layer of colour. The colour gels are especially developed for super-quick curing under modern LED devices to keep their colour even in the sun and in chlorinated or salt water.

## FX-ONE COLOUR & GLOSS

The latest generation of colour gels in brush bottles, FX-ONE Colour & Gloss, combines colour and sealant in just one product, can be cured without sticky residue and ensures an ultimate high-gloss colour finish.

# STEP BY STEP

# 1.

## PREPARATION

Prepare the nail as usual and apply conventional UV gel sculpting.

# 2.

## FILES

Smooth the surface of the sculpted nail using a file of your choice and then buff the entire nail.

# 3.

## APPLICATION

Thoroughly remove filing dust from the nail and then apply FX-One Colour&Gloss to the nail with even, slow strokes. Make sure to apply a thin layer of the polish. Cure the colour gel under UV/LED light. Repeat the process if desired.

# PROLAQ

PROLAQ offers a revolutionary alternative to traditional UV nail polish treatments. By using state-of-the-art plastic bonds in combination with nourishing additional ingredients, PROLAQ stands out from the crowd for more than just its gentle yet uncompromising adhesion. The PROLAQ system offers long durability and quick removal speeds without damaging the nail plate.

# STEP BY STEP

1.

## BASE COAT

Apply a thin layer of the PROLAQ UV Base Coat to the natural nail. Carefully seal the nail tip. Cure under UV/LED light.

2.

## COLOUR

Apply a thin layer of the desired colour over the entire nail. Cover the nail tip. Cure under UV/LED light. Repeat the process for more vibrant colour.

3.

## TOP COAT

Seal colour polish with Top Coat and cure under UV/LED light. Remove the sticky residue using Glossy Finish.

# Lac SENSATION

Lac Sensation is a nail polish that dries instantly under UV light, lasts up to 3 weeks without chipping whilst also strengthening the natural nail. In addition to the high coverage and fast curing, it is the quick removal which is the distinctive advantage of Lac Sensation. Professionals only need approximately 10 minutes for this, depending on the thickness of the coat.

## STEP BY STEP

1.

Apply Lac Sensation Base Coat to the prepared nail that has had oil removed from it. Cure for 60 seconds under LED light or for 90 seconds under UV light.

2.

Apply a thin layer the Lac Sensation colour of your choice. Cure for 60 seconds under LED light or for 90 seconds under UV light. Repeat the process.

3.

Apply Lac Sensation Top Coat and cure for 60 seconds under LED light or for 90 seconds under UV light. Remove the sticky residue using Glossy Finish.

**LAC SENSATION**

# PEDIX FEET

An exclusive, holistic range of care products for legs and feet. Here, professional expertise meets highly effective ingredients from the depths of the ocean. The healing powers from the sea have a beneficial effect on body, mind and soul, creating a feeling of total well-being.

1.

## FOOT BATH

Start the treatment with a soothing and relaxing foot bath and add a small amount of Foot Bath Powder. Toxins are removed and your sense of physical well-being improves after just a short time. Horse chestnut and caffeine have a purifying effect and stimulate circulation.

2.

## REMOVE HARD SKIN

Remove rough and callused patches on the feet using the So Easy stainless steel file (80 or 120 grit depending on how tough the skin is).

3.

## FOOT EXFOLIATION

Massage in One-Minute Pedicure Peel, leave it to work for a short while and remove with lukewarm water.

4.

## FOOT MASSAGE

The gently melting Massage Gel is ideal for a nourishing foot massage. Sweet almond oil and skin-smoothing Vitamin E indulge the body with their regenerative effect.

5.

## FOOT MASK

After the massage, apply the deep-penetrating Conditioning Vitality Mask with Marina Vital complex, spread over the skin evenly and leave to soak in for approximately 10 minutes.

6.

## NOURISHING BALM

As a nourishing finishing touch and for the long-lasting prevention of calluses, apply the intensely hydrating Heel Rescue Balm.

# alessandro **ACADEMY**

**Education and training** – from beginner to professional

The alessandro ACADEMY is one of the most experienced education centres in the field of nail design and is known for its high quality standards – which especially applies to the well-established education and training of nail stylists.

Working together with experienced experts, alessandro has also developed the concept of holistic, gradual and practical training for nail stylists.

The alessandro ACADEMY guides you in whatever training you desire and forms the best basis for professional development or self-employment.

All seminars are given using the latest research findings and state-of-the-art techniques.

alessandro's training team consists of highly qualified experts who are passionate about their 'craft' and who live and love it every single day. Through years of training experience, they all also have the talent to be able to convey technical content and techniques in an understandable way. So learn from the masters and benefit from their experience that you can also refer to at any time after training. This will give you stability and security in your career.

**No master has ever fallen from the sky, but we can make one out of you!**
