

# SKIN LIKE SILK

## roll-on waxes

### Comfortable and easy application.

Liposoluble waxes, semisolids at room temperature but easily melted in the heater-applier. Their composition (rosin derivatives) gives them a texture that adheres to the hair but does not dry. Their advantages are its low temperature (ideal for heat-sensitive skin), hygiene (single use) and comfortable, easy application (thanks to a built-in roll-on applicator).

#### Roll-on Cinnamon

Provides a magnificent sensory experience thanks to the creamy touch with a persistent woody fragrance, contrasting with the sweetness of Cinnamon.

#### Roll-on Gin Tonic

For a depilation with a marked floral, citric and refreshing character, leaving the skin smooth and with a splendid appearance.

#### Roll-on Spa and Milk.

Milk wax contains milk proteins and is formulated to keep sensitive skins healthier. Its white colour and soft aroma stand out. Spa wax contains two very important natural ingredients: essential oils with relaxing balsamic extracts and seaweed extracts with a regenerative action. Its deep blue colour and fresh aroma help comfortable hair-removal.

#### Roll-on wax Mint Chlorophyll with Tea Tree Oil.

A mentholated wax which includes Tea Tree Oil in its formula (Melaleuca Alternifolia) with recognized hygienic properties to prevent the infection of the hair bulb (folliculitis) after depilation.

#### Roll-on wax with Carrot Oil.

A transparent, orange coloured wax with carrot fragrance. It contains carrot oil with carotene. Rich in vitamin E which grants the product a high regenerative and skin protective power.

#### Roll-on Black wax with Marine Sediments.

Efficiently removes all types of hair, even the thick and resistant ones that tend not to be removed completely. Its content of marine sediments offer an improved hair follicle dilation allowing a perfect removal of the hair in one only application, without breaking it.

#### Roll-on wax Platinum.

A platinum coloured wax with a soft texture which permits a brilliant and efficient depilation, leaving the skin with an incomparable silky touch. Rich in mineral ingredients, revitalizing and enhancing recent waxed skins giving a splendid shine. Perfect for dulled skins which need a provision of LIGHT.

#### Roll-on wax ChocoGold.

The beneficial properties of chocolate are known since thousands of years. Its toning and hydrating actions are reinforced by the remineralizing properties of gold providing a perfect pull while respecting the skin to the maximum.

#### The following roll-on waxes complement the range:

NATURAL, BLUE, IVORY AND PINK. The Natural and Blue waxes are based on the original formula. These are one of the most commonly used in most cases. Ideal for use on face as well as body on normal skins. The Ivory and Pink waxes contain titanium dioxide, which grants them characteristic pasty and elastic qualities.

#### Roll-on wax Refill 85 ml.

NATURAL AND BLUE

## depilatory cosmetics

### Pre and Post depilation.

To complete our wide range of depilation products, we have added a varied line of depilatory cosmetics thought to be the perfect complementary for any method of depilation. Pre - and post depilation cosmetics, repairing oils, toning emulsions, an innovative product to avoid ingrown hairs and finally, growth retarders of new hair. All of them thought to make the work of the beauty professional much easier and to give full satisfaction to their clients.

#### Aqua Mousse Pre depil Higienic 200 ml.

Essential for before depilation. It treats the hair so that waxing is easier and more effective. It removes traces of grease, sweat, make-up, etc. lending greater adherence of the wax to the hair and improving this way its extraction. Great hygienic power thanks to its content of Irgasan and Tea Tree Oil.

#### Underpil, say goodbye to ingrown hairs.

An ideal complement for after hair removal. Avoids the subcutaneous hair growth and reduces the appearance of irritations and blemishes, contributing comfort and smoothness to the skin. 6 x 125 ml.

#### Acid Emulsion 500 ml.

Reduces redness and irritation after depilation leaving the skin smooth and silky and providing emollient and hygienic ingredients for protection. It is an excellent final touch.

#### Post depil Repair Oil 500 ml.

Removes any wax residue from the skin leaving it clean and moisturized. Enriched with vitamins A, E, F and essential oils of Tea Tree, Rosemary, Musk Rose and Bisabolol.

#### Aqua Mousse Post depil retarder 200 ml.

Ideal complement for after depilation. It reduces the possible appearance of skin irritations thanks to its vegetal extracts with smoothing and refreshing properties. Moreover it contains a growth retarder which weakens the hair progressively and so extending the time between one depilation and the next.

#### Underpil Azulene Oil, a calming oil for the skin with azulene.

An ideal post depil complement. Refreshes and alleviates irritated skin. 6 x 125 ml.

#### Retard Ampules Progressive Depilation.

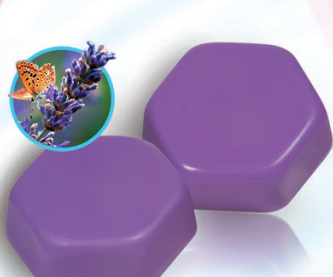

A concentrate which acts selectively on the matricial cells of the hair follicle, thus retarding the growth of new hair and so extending the time between one depilation and the next. 10 x 10 ml.

## traditional wax

### Quality and performance.

Liposoluble waxes solid at room temperature but with a very low melting point which permit to be re-used more times without the loss of its excellent depilatory properties. Basically formulated with rosin (pine resin derivatives) and bees wax. Its high content in bees wax give them elasticity to apply in thin layers without risk of cracking and at the same time provides a much softer "pull", diminishing the pain sensation when the hair is removed.

#### Violet Wax with Lavender Oil.

A wax with a high content in natural bees wax and Lavender oil with much appreciated properties in aromatherapy. Permits to be applied in fine layers granting a softer- and less painful "pull".

#### Black Wax with Marine Extracts.

Last generation wax, soft, flexible and with a high depilation power which traps the hair at its base without sticking to the skin. Moreover, its content of marine sediments, rich in cations and oligoelements, offer an improved dilatation of the hair follicle which permits a particularly efficient "pull" of the hair in one sole application without breaking it. The final result is a perfect depilation with a maximum of comfort.

#### Milk Wax with Milk Proteins.

A pasty wax with milk proteins as its principal component, formulated for those sensitive skins which require a special protection and moisturizing during depilation. Its skin regenerative and protective properties, as well as its pure white colour and its smooth fragrance, turn depilation into an enjoyable way of keeping your skin healthy.

#### Carotene Wax with Carrot oil.

A wax that, having a double vitamin A molecule, grants high regenerating and repairing powers. It also contains vitamin E with anti-oxidizing and protecting properties, very important to minimize the harmful effects of solar radiation, specially on recently depilated skins. This wax is appropriate for application on all kinds of skins but specially for the most sensitive ones, during any season of the year but essential during the Summer. Orange coloured and with a pleasant carrot fragrance. Does not contain titanium dioxide.

#### Mint Maximum Wax with Mint oil.

Wax with refreshing and relaxing properties which give hair removal a pleasant sensation of freshness and well-being. The high content of natural bees wax gives an exceptional depilating efficiency thanks to its elastic properties and its low melting point temperature. Green coloured and with a pleasant mint fragrance. Does not contain titanium dioxide.

#### Cinnamon Wax.

Provides a magnificent sensory experience thanks to the creamy touch with a persistent woody fragrance, contrasting with the sweetness of Cinnamon.

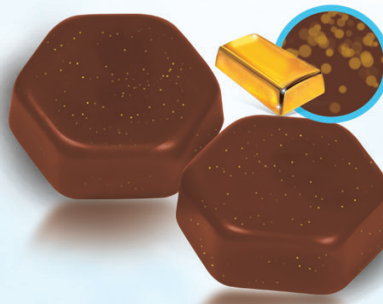

#### The following waxes complement the range:

NATURAL, BLUE, IVORY, VEGETAL, PINK.

Waxes with different qualities, perfectly adapted to the way beauticians work and also to the different seasons of the year depending if the weather is cold or warm.

Note: The Pink and Ivory waxes contain Titanium Dioxide which grant them characteristic pasty and elastic qualities.

#### ChocoGold WAX.

The beneficial properties of chocolate are known since thousands of years. Its toning and hydrating actions are reinforced by the remineralizing properties of gold providing a perfect pull while respecting the skin to the maximum.

## depilation complements

### The quality touch..

A complete product range. Indispensable to professionally complement the best techniques in depilation.

#### Paraffin treatment.

100% NATURAL.  
Low melting point. Highly moisturizing.  
Pure and without perfume.  
· Package of 450 gr.

#### Waxing strips.

Thanks to their special composition they can be used several times without breaking or the wax leaking through.  
Necessary for depilation with warm waxes.  
· Depil-OK Non Woven Extra Waxing Strips 100 pcs.

#### Wax in cans.

Liposoluble waxes, semisolid at room temperature but easily melted in the heating device.  
Its composition based on pine rosin derivatives grants a texture which adheres to the hair but does not dry up. Ideal for heat sensitive skins thanks to its low temperature.  
· Available in several references.  
· Cans of 800 and 500 ml.

#### Extra-Fine intimate wax in can.

Disposable low temperature film wax which is applied in thin layers. Perfect for the depilation of the intimate zones where the hair is more rebellious and the skin more sensitive.  
· Pink Color with a soft citric aroma.  
· Can of 800 gr.

#### Paraffin heater.

For hands and feet.  
Capacity: 5 Kg.

#### Heater for traditional wax.

2 independent pans for 500 gr. wax each.  
Also appropriate for heating wax in cans.

#### Heating device.

Specially designed to work with the warm roll-on waxes.  
· Depil-OK roll-on wax heater-applier.  
· Double base.
